THE SHOOTING AT CARYVILLE

SPECIAL TO THE JOURNAL.
Caryville, June 23.—The facts in the case of the very unfortunate shooting affair which occurred here last Saturday are about as follows: The shooting did not occur over the arrest of any employee of the Henderson-Watts Lumber Co. Only one negro was arrested by the deputy during the evening. There was some dissatisfaction expressed among some of the employees, but no one made any attempt to take the arrested man away from the deputy, neither was there any attempt made to release him from the jail. The shooting occurred in an isolated house at about two o'clock in the morning.

CITY PREPARES TO MAKE FIGHT FOR LARGE SUM

CASE AGAINST COMPANIES STANDING GOOD FOR DEPOSITS WILL BE CALLED UP IN THE CIRCUIT COURT.

In the circuit court tomorrow, the case of the city of Pensacola against the bonding companies standing good for the city's deposits in the defunct Pensacola State Bank will be called up for trial, and attorneys for the city were very busy at the city hall yesterday, making all preparations for the fight which gives promise of becoming interesting before the matter is entirely settled.

The city attorney will be assisted by W. A. Blount, and one of the strongest of legal fights will be put up if necessary to win a case which the city has already been a decided victor in during the preliminaries.

All Merchants get together and make this "Dollar Day" the biggest and best of all. Thursday, July 9th, is the day.

YACHT CLUB TO OPEN FINE NEW HEADQUARTERS

GENERAL "HOUSE-WARMING" CEREMONIES WILL TAKE PLACE THIS EVENING IN THE HANDSOMELY-FITTED ROOMS.

As a preliminary to the entertainment of the New Orleans yachtsmen who are going to be here on July 4, in a finish of the long distance race from the Crescent city to Pensacola, the Pensacola Yacht and Motor Boat Club has fitted up a handsome suite of new headquarters in the Keyes building, on South Palafox street.

Club members were yesterday busy in extending invitations to their friends, and the indications are that there will be a big gathering at the new headquarters during the evening.

The opening of this new club quarters is regarded as a good move and one in the right direction. On the occasion of the independence day races, it is expected a great number of people will be here, and among them will be visiting yachtsmen from many clubs along the gulf coast.

A committee from the Pensacola Yacht Club intends going before the city commissioners in a day or two, with the request that the city donate the use of all available berths for the accommodation of the visiting yachts and their owners.

THREE VESSELS COME TO TAKE PART CARGOES

TRIO OF STEAMSHIPS REACH PORT AND WILL FILL OUT WITH VARIOUS ITEMS—TWO STEAMERS LEAVE.

Three steamships reached port yesterday, and all of them were berthed at different docks. One is bound for South America, and will fill bunkers and take a small supply of naval stores; another comes with partial cargo of phosphate, and will fill out for German ports, while the third, arriving late in the afternoon, comes for a few hundred bales of cotton for Bremen.

The first arrival of the day was the Meltonian, which came from Tampa, with 3,500 tons of phosphate aboard, and in transit. The Meltonian, a frequent caller at Pensacola, was berthed on the east side of Tarragona wharf, where a miscellaneous cargo will be loaded, the steamer starting work immediately upon arrival.

The British steamship Overdale arrived yesterday morning and was given a berth under the coal chutes where bunkers will be filled. The steamer to probably leave for some time today. This steamer has cargo in transit for South America, and at Pensacola will load 875 barrels of rosin for Montevideo and 1208 barrels for Buenos Ayres. In addition to the naval stores, the steamer takes 900 tons of bunker coal.

The British steamship Indanola arrived at 5 o'clock yesterday afternoon, consigned to the Gulf Transit Company and was immediately berthed on the west side of Commodore wharf in the north berth, where this morning several hundred bales of cotton for Bremen will be loaded. This steamer is the first vessel to occupy the berth recently deepened by the dredge of the National Dredging Company, and which is still engaged on the rather large contract.

The British steamship Oranien, for Manchester, and the steamer Harworth, bound for Rotterdam, both left for sea yesterday.

The Journal "Want Ad. Way" is the best investment you can make.

CONNECTION WITH THE HARVESTER CO., EXPLAINED

Washington, June 23.—An explanation of his connection with the International Harvester Company was received today by Chairman of the Senate Banking committee from Thomas D. Jones of Chicago, nominated by President Wilson as a member of the federal reserve board.

Mr. Jones said he entered the trust in 1909 at the suggestion of friends and he had no large pecuniary interest in it. It was believed today that a request to Mr. Jones to appear before the committee in person would be adopted within a few days.

MILLION A YEAR TO SUNDAY SCHOOL ROLLS

Chicago, June 23.—"Add a million a year to the Sunday School rolls" is the slogan of the four thousand four hundred delegates to the International Sunday School convention who are here today in readiness for the formal opening of the convention tonight. Sunday school teacher training and the organizing of Sunday schools on a basis of real efficiency in delivering instruction on the Bible and in building Christian character will be the most important subjects of the sessions. All evangelical denominations are represented.

Check the Symptoms Of Lung Trouble

Symptoms of severe lung trouble, such as fever, night sweats and loss of weight etc., should be checked, or serious results will follow. Eckman's Alternative has brought about many recoveries. Read this: "I was thirty-six years old, New York City. I was a sufferer from Bronchitis. I tried doctor after doctor, getting little or no benefit. Finally I had night sweats, weak spells and lost rapidly in weight and my doctor told me if they were not checked, I would have Consumption. Miss Mary Korbauer, who is a friend of mine, received after taking your Alternative and insisted that I try it. I am now after two years, perfectly well, strong and healthy." (Advertisement)

BIG AUDIENCE HEARS ADDRESS

EVANGELIST COLE—"THE PHOTO-DRAMA OF CREATION," DECLARES SPEAKER, IS PASTOR RUSSELL'S MOST PHILANTHROPIC ACHIEVEMENT.

The closing feature of the Photo-Drama of Creation was given here yesterday, when Pastor James H. Cole, of Cleveland, Ohio, addressed a large gathering on the subject, "Pastor Russell's Teachings Examined."

The speaker said that "Pastor Russell's Motives, as they are popularly called, are arousing much interest in Bible study everywhere they go. Many who have seen them here during the past few weeks are studying their Bibles with renewed interest. The speaker referred to Pastor Russell's extensive tours and free Bible lectures, to his sermons, which reach twenty million people each week through over two thousand newspapers in the Scriptures, now translated into nineteen languages, which he has given by the million to the public at less than cost."

First, Pastor Russell's conception of God. While many were said to be drifting into the worship of a "Nature God" or some abstract principle such as "The all-good," Pastor Russell was said to be earnestly contending for the God of the Bible, the personal God, who created all things, who loves His creatures and plans for their highest welfare.

Pastor Russell's views concerning the Bible were next considered. He was said to be the most positive in his convictions concerning the inspiration of the Scriptures, thus bringing upon himself the hatred and persecution of many opposing ministers and higher critics. "Nathan and the Blazed" continued the speaker, "is considered by many to be a myth, while the account of Jonah and the whale is generally conceded to be the biggest fish story ever told. Pastor Russell, however, points to the Lord's own words regarding Noah and Jonah, as proof that those who deny the veracity of the original accounts are in fact denying the Lord's own statement of the same, and repudiating Him as a false teacher. It is for the public to decide whether or not Pastor Russell takes the correct view."

Concerning man, Pastor Russell's views were said to differ from those of evolutionists in that he still holds to the Biblical view that man was created in God's image instead of being evolved from a monkey prototype. His fall from perfection brought death, from which his only hope of deliverance lies in a resurrection.

The subject of the ransom was next considered. Pastor Russell was said to be a firm believer in the Divinity of Christ, not that Jesus was a human being, but that He had with Him the nature of God, and that He was begotten by the Father with which He was begotten at Jordan.

In examining Pastor Russell's views on future punishment, Mr. Cole said that many accuse the Brooklyn Pastor of not being orthodox in that he does not teach the red hot hell of the Dark Ages. "Pastor Russell," continued the speaker, "does not go to the creeds of the Dark Ages, but to the Bible for his orthodox views. He believes in the Bible's hell, which according to every concordance and lexicon means the tomb, the grave, the condition of death, oblivion. He teaches that the future punishment described in the Bible is not eternal life in torment, but eternal death, 'The Second Death.' 'All the wicked will God destroy.' (Psalms 145:20). 'They shall be as though they had not been.' (Isaiah 34:10)."

After a brief discussion of Pastor Russell's teachings respecting the church, his views concerning the world were examined. Without admitting a second chance for any, he was said to set forth from the Scriptures the hope of one full fair chance for every individual of the human race. Jesus is said to be the light that lighteth every man that cometh into the world, then sooner or later, according to Pastor Russell, every man will receive that true light, with

RATE ADVANCE IS 25 CENTS A BALE ON COTTON

IF THE PROPOSED INCREASE BY THE L. & N. IS ALLOWED IT WILL MEAN FIVE CENTS PER HUNDRED ON COTTON HANDED.

Instead of an increase averaging five cents per bale on all cotton landed to Pensacola over the Alabama & Florida & Florida divisions of the Louisville & Nashville, as stated yesterday morning the rate advance will mean approximately twenty-five cents per bale on cotton landed from the points named in The Journal yesterday morning.

From Red Level the rate proposed is one cent per hundred or about five cents per bale, but this is the only station where the rate is this low. The others are four cents per hundred increase or twenty cents per bale while at all others the rate is five cents per hundred increase or 25 cents per bale.

An examiner of the Interstate Commerce Commission will be in Pensacola on July 7th to investigate into the reasonableness of the proposed increase and pending this inquiry the proposed advance has been suspended.

AMUSEMENTS

At the Isis.

Big special feature today—"Facing the Footlights," in three parts—Father.

Marjorie Helms and her husband, a young inventor, are thoroughly in love with one another and happy in their simple home life with their one child, a little daughter. Helms is conducting experiments with a view of improving certain high explosives and seems in a fair way of attaining success. His laboratory being near his house, his wife has a pretty habit of calling for him when it is time for him to finish his evening's work.

With the little daughter she runs on him one day at the laboratory and the child pleading with her father to make some fire works for her, he explodes a small quantity of powder. His wife and child have no sooner left the laboratory than they hear an explosion and see a burst of flames from the building. A spark from the inopportune fire cracker has found its way unseen into the closet where the chemicals are stored and have results.

With the aid of a servant Marjorie rescues her husband from the wrecked and burning building.

Later, when she has recovered from her swoon but is still weak and ill, he goes to her, still determined on his course. She asks him to bring her the strong box and then shows him the unpaid bills, the theatre contract and all the evidences of their need for money. He is overwhelmed in the face of the facts and fall of contrition and humility begs the plucky wife for the forgiveness which she so readily grants.

I-C-E! Honest Now, Are You Not Always Glad to See Our Wagon

You may fret when it is late and may be tempted to think unkind things about us, but when the wagon turns the corner does not the sense of relief which you experience show how truly welcome the coming of the wagon is?

In most cases when the wagon is late in reaching your door it is because some customers on your route have held it back, and their thoughtlessness, while unintentional, makes you suffer. We are quite sure that you would not knowingly delay the ice wagon on its way to homes where sickness and suffering prevail. On the contrary, if you could speed it along, you would. There is scarcely a day in which the wagon on your route does not go to homes where anxious mothers are watching for it with heavy hearts. You can speed the wagon by answering the call promptly, by having the road clear to the refrigerator, by having the change or the coupon in hand and in other ways which your own intelligence will suggest.

We know you are going to act on this hint now and hereafter. Thank you!

YOUNG WOMAN'S DEATH MOURNED

MRS. ALMA YATES GRANT EXPIRES AT HER HOME IN THIS CITY AFTER AN ILLNESS OF SHORT DURATION.

Many of her friends were deeply pained yesterday to learn of the death of Mrs. Alma Yates Grant, the wife of J. L. Grant, her death occurring yesterday, June 23, at her home in this city.

The immediate cause of her death was acute Bright's Disease, with which she had suffered for a comparatively short time.

She was but eighteen years of age, and had a wide circle of friends and relatives in Pensacola.

The funeral services will be held at
