livered by some famous orator of rare ability. The International Bible Students' Association is supported through voluntary contributions, and it is announced that not only will there be no admission fee charged but that no collection will be taken after the exhibition has begun. The projectors of this new method of reaching every man with religion are confident that it will prove of the greatest efficiency in spreading the great truths of religion.

The International Bible Students' Association holds its meetings in public auditoriums, opera houses, etc., where persons of all nationalities and creeds, as well as skeptics, may assemble without prejudice. Nearly every city in America as well as in other countries, has its International Bible Students' class. Annually conventions are held in America and Europe, where matters of interest to religious workers are discussed and expounded by leaders of religious thought.

The entire work of the International Bible Students' Association is for the purpose of encouraging individual Bible study and the fact that all meetings are free and no collection taken affords sufficient evidence to prove that the work is not actuated by mercenary motives.

### DEFALCATIONS DURING YEAR OF FOUR MILLIONS

ACCORDING TO BULLETINS ISSUED BY NATIONAL SURETY COMPANY, THE EVIL AMOUNTED TO HUGE SUMS IN 1913.

BY ASSOCIATED PRESS.  
New York, June 6.—Defalcations amounting to approximately \$4,000,000 were publicly reported by the United States in 1913, according to estimates recently obtained by the National Surety company and yesterday made public by William B. Joyce, president.

Unreported and undiscovered defalcations, though impossible to compute accurately, may be consequently estimated at \$40,000,000. The company seeks to call attention to the widespread nature of the defalcation evil. Meagre salaries are unquestionably one of the chief causes. Clerks, managers and cashiers who have tried unsuccessfully to support large families on from \$75 to \$100 per month, form a large part of the defalcators. Another important cause of defalcation has been the prevailing business depression. Many victimized employers who, in times of prosperity might have concealed their employer's defalcation for business or humane reasons, have been obliged to realize on the defaulting employee's bond because times were hard, and thus an unusual number of defalcations have this year been made public.

### CITY MAY TAKE THE KUPFRIAN'S PARK PROPERTY

PROPOSITION FOR EXCHANGE OF THAT PLACE FOR LOTS IN VARIOUS PARTS OF PENSACOLA BEING CONSIDERED.

Mayor Greenhut and the city commissioners had an interview yesterday with those in charge of the Kupfrian park property, in which it was urged that the city exchange for the park property lots of an equal property valuation in other parts of the city.

So far as the mayor is concerned, he expressed the belief that such an exchange could be arranged to the satisfaction of all concerned, and the question is being considered in earnest by the city officials.

There are now thirteen parks in the eastern part of the city, the mayor argues, and but one in the western half. He holds to the opinion that the chance to get hold of the large park at such terms and upon such arrangement as proposed, should be seized. "One thing that appeals to us," the mayor said, "is the fact that we have but one public park in the western part of the city, while in the eastern half we have twelve or thirteen. I believe, and some of them but a few blocks apart from one another. We need more parks in the western half, and I believe such an arrangement as was proposed could be worked out to the satisfaction of all concerned. The property offered, I believe, takes in a tract of thirty-nine acres, which includes the race track and baseball ground. Then another thing there could be had there an annual exposition. Like it is now the fair association is powerless to go ahead and put up anything substantial because there is no way of telling how soon the property will have to be vacated. If the city had control of it, the fair could be a bigger feature than ever."

The city now owns quite a number of lots in various parts of the city, which the mayor said could hardly ever be made use of to the city's advantage. The lots are finely situated for the building of them of tenement houses, "but the city will never build for rental purposes, and of this we may be sure. I see no better way of getting a value out of these lots than that of trading them or some of them for the park property as proposed."

Of course it is too early yet to say what could and would be done in this question, but of one thing that there exists no uncertainty of, and that is the proposition has created a favorable impression with the city officials.

### HAS NO FEAR OF FINAL OUTCOME

Editor Pensacola Journal.  
St. Andrews, June 4, 1914.  
The affidavit against me was returned to by E. M. Newman the man who was indicted by the grand jury here on Senator Stokes's and my testimony. I supported eight men for county officers openly to break the ring and six of them were nominated, including my brother, Frank, for sheriff.

At Miss Herriman's, Untrimmed Hats, 74 cents.

### COOK.

Cook, June 6.—Mr. Tobe Cox, our energetic crosstie man delivered a raft of some six or seven hundred ties to Panama City last week for Mr. Taylor.

The primary election passed off very quietly at this place on the 2nd, in fact from what we can hear, everything was nice and quiet all over the entire county.

While on their way home from Mallette one day last week Mr. W. T. Oliver and son Buford, came upon a den of alligators located in a swamp near the road. Being of the opinion that these reptile might cut off his fall and winter meat supply, Mr. Oliver proceeded to clear them out. They succeeded in killing three in a very short time, the largest being about 9 feet long.

Our county commissioners are opening a road from Mooretown east on section lines to the county line between Bay and Calhoun counties. When the road is completed it will open up one of the best farming and fruit growing sections there is in Bay county or any other county in West Florida. To show that our people appreciate this work one has to but notice the men who volunteer their services. Young men under age are out but the most noticeable was two or three over aged men. Mr. Geo. B. Ham and Mr. J. J. Nichols who are 65 and 85 years old respectively, were out and as much enthused as the youngest of 'em.

With the completion of the East bay canal and transportation from up the river as far as Columbus, Georgia, this the largest and best developed arm of the West Florida. Truck farmers, fruit growers and stock raisers will find there is no place like East Bay. With good land and first class transportation, what more do you want? The rest comes easy.

### MARIANNA HAS COSTLY BLAZE

LARGE WAREHOUSE FILLED WITH FARMING IMPLEMENTS IS DESTROYED WITH LOSS OF \$10,000.

SPECIAL TO THE JOURNAL.  
Marianna, June 6.—An early morning fire destroyed the warehouse occupied jointly by the Moore-Gammon Hardware Company and C. C. Linton & Company of the southwest corner of the court house square in this city. The origin of the fire is unknown, as no one had been in the house since yesterday.

It was filled with hay, grain, farming implements, wagons, wire fencing, oils, etc. The building was owned by J. M. Calhoun of this city. The loss will reach probably ten thousand dollars, with no insurance.

### Trail Mexican Gunboats.

(Continued From First Page.)

schooner Sunshinette without interference was regarded as significant. Officials of the state and navy departments declined to comment upon it. There were indications, however, that the Washington government would continue to regard Tampico as an open port. With the Cuban steamer Anilla on its way from New York to Tampico carrying arms for Carranza, there had been much speculation on that point—that the United States would do if Huerta attempted to blockade American warships were keeping Huerta's three gunboats under surveillance. They had made no move early today toward Tampico. The navy department was to be notified immediately if they sailed.

Official reports stated that the Sunshinette sailed from Galveston with clearance papers for Havana but instead of going to the Cuban port, sailed directly for Tampico.

Reports that Tampico's custom house had been seized after the manner of occupation of Vera Cruz, were denied specifically by the navy department. No such move was in contemplation at Tampico or any other Mexican port, the statement said.

In diplomatic circles, the developments at Tampico were closely watched. Belief seemed general that any decision by the United States to prevent a blockade by Huerta would lead to complications and menace the success of mediation.

### DEFINITE WORD IS NOT EXPECTED BEFORE MONDAY

Niagara Falls, June 6.—Definite word about the Constitutionalists' attitude toward mediation was expected by the South American envoys until Monday or possibly Tuesday. They realize that General Carranza's trip from Durango to San Luis will occupy the next 48 hours and they are not disposed to worry about the delay, believing time for deliberation is an essential part of the process.

The mediators have no inkling of what the Constitutionalists will do, not have either set of delegates. The feeling, however, is one of hope. Such information was given here by the mediators from Washington indicates that the situation is highly encouraging and is believed formal answer from Carranza will not be drafted until he gets the information from his agents in the United States that was contained in the correspondence with the mediators.

The question of ammunition shipments to either the Constitutionalists or the Huerta government is not giving the mediators concern as they hold it to be an issue purely for the American government to decide. The only armistice now in effect is between the Huerta government and the United States and so far as known there has been no agreement with the Washington government with the mediators or either of the Mexican factions as to the shipment of arms from the United States to Mexico, the whole thing being a matter of course.

It was expected that there would be a conversation between the American delegates and the mediators today regarding certain phases of the peace plan which the former have been studying and on which they have been obtaining information from Washington.

### Cyclone Takes a Toll of Lives and Property In Ia.

BY ASSOCIATED PRESS.  
Savage Iowa, June 6.—Two are dead, one missing and two injured in a cyclone which struck this vicinity last night. Property damage is estimated at \$150,000, practically all of the east end of the town having been levelled by the wind.

The dead are Mrs. B. L. Fink and P. W. Yetuma. J. B. Long and Mrs. G. W. Bonner were seriously injured and Patrick Doherty is missing. Two elevators, the city water tower, the electric light plant and a lumber yard were swept away by the storm. The fact that there were fatalities did not develop until today when the bodies of Mrs. Fink and Yetuma, a lad of 16 years, were found in their ruined homes.

### EARTHQUAKES IN JAPAN ARE ON THE WANE

MATTER WHICH HAS BEEN A SOURCE OF CONTINUAL WORRY AND FREQUENT DEVASTATION, MAY SHORTLY BE THING OF PAST.

BY ASSOCIATED PRESS.  
Tokyo, June 6.—Frank A. Perret, the American volcanologist, has come to the conclusion that the volcanic and earthquake activity which has been the source of continual worry and frequent devastation in Japan is on the wane. But the hope he holds out is not for immediate cessation of these troubles. It is a matter of centuries.

Dr. Perret is one of the few scientists who devote their whole time to the study of the earth's convulsions. He represents the Volcanic Research society of Springfield, Mass., and the Volcanological Institute of Naples, Italy. Most of his time under the shadow of Vesuvius. He came here last February to visit the scene of the volcanic eruption on the Island of Sakura, the month previously, when Sakurajima's molten lava caused a great loss of life and property.

Details of an incident which befell him during his investigations make it appear that he had a very narrow escape from death over his injuries. He was taking notes of a lava flow when suddenly a small crater, only sixty feet from where he was standing, burst forth with a terrific explosion, sending a column of lava and red hot rocks thousands of feet into the air. A tongue of lava struck one of Dr. Perret's knees and several stones hurtled into his chest. That his injuries were not more serious, or even fatal, was due only to the fact that he was able to shelter himself behind a large boulder.

"I have taken many chances," he said, "but certainly I have never been so near death as I was at Sakurajima."

While the full report of his investigation will not be drawn up until later, Dr. Perret is convinced that the study of volcanic and seismic conditions in Japan has been well worth while. For one thing, he said, the study has increased our knowledge of the mode of action of an exploding lava in causing a horizontal blast, which is one of the most destructive of all volcanic manifestations.

Speaking of the general situation, he continued: "We must remember that volcanoes form a constructive means for the upbuilding of this archipelago which began ages ago, and which is continuing. If we look from the standpoint of a large number of years—say centuries—we can say that volcanic phenomena is waning. Consequently earthquakes, always considered them as a whole, will become fewer in Japan, rather than more numerous."

During this waning period, however, he added, it is always possible that severe disturbances would occur, and that many communities took risks, as at Mount Asu, where 1,800 people actually live in a crater.

### FANS AT OPERA HOUSE TO DAY

VISITORS WHO WITNESS THE FREE MOTION PICTURES WILL BE KEPT COOL BY ELECTRIC FANS AT BOTH AFTERNOON AND NIGHT ENTERTAINMENTS.

A number of large electric fans have just been installed at the Pensacola opera house for the comfort of those who attend the free Photo Drama of creation this afternoon and tonight.

### MUNSON.

Munson, June 6.—Mr. M. M. Glasgow of Bagdad, and Mr. McGill of Chicago spent Monday in Munson. Miss Roople, who has been attending Mrs. C. H. Maul, has returned to Pensacola.

Mrs. W. M. York of McLeilan, went to Bagdad Monday to attend her son who has fever.

Mr. C. E. Siddall came to Munson Friday to take charge of the commissary office work for a while. His wife joined him Monday.

Mrs. C. S. Simpson has returned from a visit to Florida.

Mr. J. E. Byett of Oathti, was transacting business here Monday.

Mr. Thomas Lurnum spent a few hours here Monday.

Mr. Wiley Cravey of Camp No. 12 spent Sunday at sweet water camp.

Mr. and Mrs. Gus Nelson of Red Rock were in Munson shopping Monday.

Mr. J. R. Board representing the Consolidated Grocery Co. made his usual trip to Munson this week.

Mr. C. S. Simpson travelling salesman of Mobile spent Tuesday here.

Mr. P. C. Dorr representing the New Orleans Furniture Co. spent Tuesday in Munson.

Mrs. Haynes of Bagdad was the guest of Mrs. C. M. Munson Tuesday.

Mr. Curry Cawthon of Florida is in Munson this week.

Mr. H. Roe the F. & A. agent of Bagdad spent a few hours in Munson Wednesday.

Mr. J. L. Wilson representing the Union Naval Stores of Pensacola was in Munson Tuesday.

Rev. Harrelson and family were called to the bedside of his daughter in Andalusia last Tuesday.

Messrs. Joe Bishop and Caylor came in Thursday after spending several weeks in Florida.

Mr. J. A. Gunn of Pensacola was here Tuesday.

Mr. P. Well a lumberman of Mobile, spent a while here Wednesday.

Mr. H. W. Brimberry, who has been "shell" girl and had charge of the past office for several months, left Thursday. He has accepted a position as traveling salesman for Myer-Bridges, of Louisville, Ky. During his stay here he has won many friends who regret to see him leave Munson.

Thursday evening Mr. Mooney delivered a temperance lecture at the church and illustrated it with moving pictures. Every one that heard this lecture should be benefited by it and take heed of morals each picture showed.

Mr. J. H. Weaver of McLeilan was in Munson Friday.

Save a Dollar back for Dollar Day, coming in June. \$30 in cash free to The Journal readers.

### BIRTHS, DEATHS AND MARRIAGES FOR PAST WEEK

Fourteen births and thirteen deaths were reported during the past week. Included in the births were two sets of twins, all white people, while two of the deaths were those of one set of twins. The vital statistics record for the week follows:

**White Births**  
To J. R. Creighton and wife, boys, twins.  
To E. T. Gaff and wife, a boy.  
To Malcolm Riera and wife, a girl.  
To Clarence Hutchinson and wife, a girl.  
To E. E. Harrington and wife, a girl.  
To A. M. Crumpher and wife, a girl.  
To Herman H. Roogie and wife, a girl.  
To Mario Toronto and wife, a boy.  
To W. S. Creel and wife, a girl.  
To Wm. Carter and wife, a girl and boy, twins.

**Colored Births.**  
To Henry McMillian and wife, a boy.  
To O. L. Bank and wife, a boy.  
**White Deaths.**  
W. C. Moore, 28 years, appendicitis.  
Thos. H. Houlihan, 47 years heart disease.  
Mrs. Pollie A. Sarra, 73 years 8 months senility.  
Infant A. M. Crumpher, 8 hours premature birth.  
James C. Clark, 82 years Accidental death.

**Colored Deaths.**  
Miguel Borras, 82 years, acute indigestion.  
Mariah Hubbard, 61 years, gastritis and choleraemia.  
Viola Bryant, 6 months, cholera infantum.  
Charles H. Hudgins, 45 years, accidental, hit by electric street car.  
Aaron Allen, 46 years, chronic nephritis.  
Sterling Dean, 7 months 7 days worms.

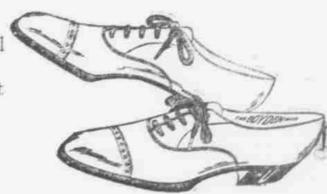

The following licenses to marry were issued during the past week by the county judge:  
**White Marriages.**  
Charles Nicholas and Katherine Herrin.  
John J. Gibson and Lela Caffield.  
William P. Dixon and Viola Williams.  
James B. Church and Elgia Diaz.  
Theodore Gillis and Hazel Hunter.  
Wylie Lawton Thomas and Helen LaRue Joyner.

**Colored Marriages.**  
Robert Mitchell and Willie May Slaughter.
