FORNEY'S TRUST

John A. Chaloner Devotes \$1,500,000 to Education.

PROVISIONS OF HIS WILL

Control of Property Retained During Lifetime, Then Goes to Colleges and Universities.

RICHMOND, Va., July 15.—Liberal plans for aid to southern education are made in the last will and testament of John Armstrong Chaloner, dated May 10, 1912. Mr. Chaloner, fearing that relatives may attempt to contest the will on grounds of alleged insanity, has conveyed his entire property, estimated at \$1,500,000, in trust to the Virginia Trust Company of Richmond, naming the University of Virginia and the University of North Carolina as residuary legatees, while nine other educational institutions in several states will receive \$100,000 each. The residuary legatees are to share alike. Control of the property is retained by Mr. Chaloner during his lifetime, and the right to vote stock, but he agrees not to insulate the trust from the real estate which he holds by the securities, except for the permanent improvement of his Merry Mills property in Virginia and his New York estates.

Bequests of \$100,000 Each.

To Columbia University of New York he leaves \$100,000, the interest of which is to go toward increasing the Chanler historical prize. The Virginia Military Institute, the Virginia Polytechnic Institute, the College of Agriculture and Mechanical Arts of North Carolina, the town of Roanoke Rapid, N. C., the University of South Carolina, the South Carolina College, the Clemson Agricultural College, the South Carolina College of Education, Charleston are each given bequests of \$100,000. The interest on the \$100,000 given the town of Roanoke Rapid is to be expended annually for a Christmas tree for the public school children, and provision is made for the gradual increase of the fund. Each child is to receive a present.

Mr. Chaloner, who is a member of the Chanler family of New York, but who has resided in this country since a decree declaring him mentally irresponsible. By the execution of the deed of trust in Virginia he hopes to secure a carrying out of the terms of his will.

Property Transferred.

The deed transfers the following property:

Eight hundred and fifty-five shares of the preferred stock of the United Industrial Company grounds and factory at Roanoke Rapids, N. C.; par value, \$100 each.

Two hundred and thirty shares of the common stock of the same company, par value, \$100 each.

Three thousand five hundred and forty shares of the stock of the Roanoke Rapids Power Company, par value, \$10 each.

Promissory note of the United Industrial Company for \$4,000.

Second mortgage on properties of the United Industrial Company for \$25,112.

Chaloner's share of the Collins estate in New York city left him by his grandaunt, Laura Astor Delano.

Lot with ten-story office building at 258 Broadway, New York.

Villa site of 360 acres at Rhinebeck-on-the-Hudson.

Farm of sixty acres at Red Hook, Dutchess county, New York.

Lot with ten-story office building at Halifax county, N. C.

Parcels of real estate in Roanoke Rapids.

Private Orphan Asylum.

The ten-story office building in New York is transferred subject to an encumbrance of \$50,000, to provide an endowment for a private female orphan asylum at Red Hook, N. Y., owned by Chaloner, and known as St. Margaret's Home.

The nine \$100,000 bequests are to be created out of the accumulated income from the properties, but at the time of his demise the accumulated income does not aggregate \$90,000, the trustees of the residuary legatees are authorized to meet the properties to meet the deficit.

The "Chanler historical prize" at Columbia University, which Chaloner adds \$100,000, was founded by John Winthrop Chaloner, and is given annually to the junior class of the university. The income from the addition is to be distributed as follows: One hundred dollars as a prize to the second best historical essay; \$50 for the third best and the remainder to swell the first prize.

EXPLAINS THE TERM

Pastor Russell Says Bible's Hell Is the Tomb.

LONG SEASON OF "SLEEP"

Speaker at Meeting Yesterday Discusses the Awakening—Bible Students Conclude Session.

"The Bible hell is the tomb!" With this sentence Pastor Russell of the Brooklyn Tabernacle, and president of the International Bible Students' Association, summed up his belief at the convention session of that organization in the Academy Theater yesterday afternoon. He delivered an address on "The Bible Punishment for Sin." Seats had been reserved until 2:30 o'clock for the general public and a few minutes later every remaining seat in the house had been taken by members of the convention.

Pastor Russell declared that the Bible alone teaches that men die when they cease to live. "Yet," he said, "it calls this 'sleep' because there is to be an awakening, a resurrection of the dead both just and unjust. The time for this resurrection 'fell asleep' as well as all others of Adam's race. They are sleeping in a great prison house, the tomb, unconscious until it shall be opened and they shall be called forth.

Restorer and Lifegiver.

"It was not sufficient that Jesus came and died for man's sin. Such satisfaction of justice is preliminary to their recovery from the prison and from the hereditary weaknesses which led them to the prison house, the tomb. Hence the Redeemer is also to be the Restorer and Restorer of the human race. The work of restitution is still future, but near. It will begin at Jesus' second advent, says St. Peter."

He then discussed the statement that the Messiah's kingdom theory has been exploded, declaring:

"It was Jesus himself that told of His future reign of a thousand years, when his bride—the elect—will be asunder. The time for that is now, and when Satan shall be bound. The loss of this hope by our forefathers led on to all the grievous errors from which we are now seeking to escape. Do we not still pray, 'Thy kingdom come, thy will be done on earth even as it is in heaven?' The coming Messiah's kingdom is the key to the world's blessing by restitution—back to human perfection in a world-wide Eden. While waiting for his due time to come for the blessing of mankind God is not idle. He made one election during the Jewish age, and another of a saintly few for His future work. And during this Christian age God has been making another election—the church, the bride, the lamb's wife."

"These elections do not spell torture to the non-elect masses of mankind, but the reverse—blessing. Through these elect saints God's favors and mercies will be poured upon Adam's race for a thousand years, from their fulfilment to that that was lost in Eden and redeemed at Calvary."

Punishment of Sinners.

In concluding the clergyman took up the question of the Bible punishment for sinners. "Every wrong act, word or thought," he said, "has its degrading influence and will bring its 'stripes.' It does mean that no one is new in torture. All are 'asleep' in the tomb, and all will be blest and reasonably dealt with by their Redeemer. Therefore, every good endeavor now will bring proportional uplift of character and tell on the future favorably—even in those not of the saintly elect class. The parables and dark sayings of Jesus and the Revelations are now in due time 'being understood, and are now.' Full harmony with Divine justice are now."

Following this meeting another was held at 7:30 o'clock when a symposium and love feast was held. Various delegates from the floor addressed the gathering.

The day was known as "holiness day," and at the conclusion of the last service many arranged to leave for their homes, practically all of them.

The Philadelphia Bible students' special train left at 9:45 o'clock; the Boston Bible students' train at 10 o'clock; the Philadelphia Bible students' train at 10:15 o'clock; the Chicago Bible students, who will make a stop-over at New York, leaving at 10:30 o'clock; and the Cleveland Bible students' train left at 10:45 a. m.

Exercises at Masonic Temple.

At the Masonic Temple yesterday Frank Detwiler of Pittsburgh, Pa., delivered an address at 10 o'clock and at 11 o'clock O. L. Sullivan of Nashville, Tenn., gave a discourse. The ladies' quartet sang several selections.

At the Academy of Music Allen Saphorin, Canadian, who conducted the praise service at 9 o'clock; at 10 o'clock Benjamin Barton of Philadelphia, Pa., delivered a discourse at 10 o'clock F. A. Cook of Detroit, Mich., spoke.

Kann's Great July Clean Up

Of Good Merchandise of Every Desirable Sort Continues Tomorrow With Another Big Lot of Bargains

Tables piled full of odd lots, broken lines and surplus stocks that must be reduced before inventory—result

The Lowest Prices of the Year Now Prevail

Part of the good items are told of below, but the great story is to be read in the store at every table and counter. VISIT THE STORE DAILY.

American Tissues in 30 & 32 Inch Widths, on Bargain Tables, at a Yard, 1 1/2c

Deliciously cool looking will be your comment when you see these pretty checked and plaid patterns, combination of white grounds and delicate colorings, 18c to 25c is the price at which they are usually sold elsewhere. Our special price has been 18c a yard, tomorrow and during this clean-up sale you have the opportunity to purchase at 12 1/2c a yard.

OYSTER WHITE French Linen: 36 inches wide; a material that every woman knows is one of the best in color and weight for making up separate pieces, not easily harmed, 39c worth only 19c.

59c Camping Pillow

Worth 39c

Made of a good blue art ticking, filled with new odorless feathers. A pillow that will just fit the needs of the camper—low priced, but very comfortable and not easily harmed, 39c worth only 19c.

Open Letter to Physicians

You will agree that the following presents an incurable case so far as Digitalis, Nitro glycerine, Bismuth's Mixture, etc., are concerned.

Chronic Bright's Disease of the kidneys, patient in convulsions nearly every day for three weeks, twenty pounds of the patient's weight being dropped.

Patient—W. E. Strickland, address 45 Vermont, San Francisco.

Family's physician, Dr. Kelley, told him there was no hope.

E. L. Baldwin, President of the Perry Drug Store, No. 29 Market Street, was instrumental in having Pulson's Renal Compound put to the test in this case. There was gradual improvement thereafter and final recovery. That it was complete was known from the fact that this was about seven years ago and he was well at last advised a few months ago.

The motive of Pulson's Renal Compound (a salt infusion) is to stop the degeneration in renal tissues and gradually relax the obstructed kidney. Then the usual heat, elastic and tonic treatment is helpful (there is no conflict and the prognosis changes from despair to hope. (When not extreme many cases recover under the Renal Compound alone.)

The substance of the formula surrounds each bottle.

Jan. O'Donnell's Drug Store will fill prescriptions and supply pamphlets.

John J. Pulson Co., San Francisco.

FORT MCHENRY MAY BE CONVERTED INTO MUSEUM

Congress Is Expected to Pass Bill to Preserve Historic Spot.

Having lost its strategic value as a post for the defense of Baltimore, Fort McHenry has been offered to the War Department. If a bill pending in Congress becomes a law, which is almost assured, the historic old fort will be preserved as a government reservation and a museum of historical relics. For some time the fort has been guarded by the 141st Company of Coast Artillery. That company has just been ordered to take station at Fort Strong, near Boston, and will leave Baltimore in a few days.

Unless Congress makes other provision in the meantime the old fort will then be left solely to the care and attention of a few soldiers of the quartermaster's department of the army. Their business will be to protect the property and look after the fort's maintenance. The grim old smoothbore peering over the embankments will tell all that remain of the Paraglyphia of war.

Known the world over as the scene and inspiration of the writing of the national hymn "The Star Spangled Banner," by the young Georgetown lawyer, Francis Scott Key, the bombardment of the fort during the war of 1812, and continued until the next morning, which later was the day of the writing of the "Star Spangled Banner."

The Rayner bill for the preservation of the fort was introduced in the House by the unanimous consent calendar of the House, and probably will be called up for action in a day or two.

FORMER CONSUL DEAD.

A. E. Moynell, Identified With the Cuban Cause, Collapses.

SAVANNAH, Ga., July 13.—A. E. Moynell, formerly prominent identified with the struggles of Cuba for independence and later Cuban consul here, dropped dead at his home in Savannah last night. He was about sixty years old.

At one time, it is said, Moynell was so hotly pressed by his Spanish enemies in Cuba that he was nailed in a barrel by his friends and shipped from the island to the United States in that way.

"Shanghaing of Little Welsh," a rattling tale of the sea, by Francis Bourke and Charles Francis Bourke, in our new Sunday Magazine.

TRIP BY SEA A THRILLER

Transport Bearing Regiment of Troops Encounters Heavy Ice Floes.

TACOMA, Wash., July 15.—After having narrowly escaped being sent to the bottom by the ice floes encountered in Bering sea, the United States Army transport Sheridan arrived here last night with the 16th United States Infantry, and the captain of the vessel, a thrilling experience when the vessel was caught in the ice.

For seventeen days off St. Lawrence island, to the west of Morden sound, en route to Nome, the Sheridan lay ice-bound, making only ninety miles in this time.

Forty-Eight Hours on Bridge.

For forty-eight hours her captain, Michael Healy, and Pilot Krassky, watched on the bridges of the ship, and at times the captain stood on the bow directing the slow advance of the steamer. The enlisted men suffered from cold, and two died of pneumonia en route.

The average per diem wage paid is increasing steadily. An "index figure" adopted by the bureau several years ago shows that the average per diem wage in 1911 was \$1.25, and for 1912 it is \$1.35, indicating an increase during the year of about 8 per cent.

NEARLY HALF MILLION.

Labor Unions in New York State Have 497,000 Members.

ALBANY, N. Y., July 15.—The returns gathered by the New York State bureau of labor statistics for the first three months of the year show that there are present 2,150 labor organizations in the state, with a membership of 497,000. The membership of the men's unions has decreased about 1 per cent during the past two months, and the membership of the women's unions has decreased about 20 per cent of the union workers were idle on the last working day and the trip was resumed, the men being reported as continuously idle throughout the first quarter of the year.

"The average per diem wage paid is increasing steadily. An 'index figure' adopted by the bureau several years ago shows that the average per diem wage in 1911 was \$1.25, and for 1912 it is \$1.35, indicating an increase during the year of about 8 per cent.

TENTS REDUCED

Campers Should Investigate.

300 Fine Tents, made of 8-ounce white duck, with 4-foot tall poles, ready for use on lawn, at the seashore, mountain or country. Good, durable. Tents, to close at these prices:

- 5x5 Feet, \$3.95
- 6x6 Feet, \$4.49
- 5x7 Feet, \$4.95

Tent Store—Fourth Floor.

SPEEDING MOTOR CARS CAUGHT IN CLOUDBURST

Auto From Washington, Escorting Good Roads Special, Has to Return.

Special Correspondence of The Star.

CHURCHVILLE, Md., July 14, 1912.

It was a sad parting of the ways near here this afternoon, when the escort car of C. Francis Jenkins of Washington, D. C., in the midst of the historic Midway about and headed for the National Capitol, while the Los Angeles Times good roads special, which it had piloted half the distance between Washington and Philadelphia, was forced to continue on to New York. The rain fell in torrents, drenching the occupants of the cars to the skin, while halloons the size of marbles blinded the observation of the drivers as they sped along the highway. It was the worst storm in the history of this section, and no estimate can be obtained of the damage done to the crops and property in this county.

The western motorists, who are blazing an ocean-to-ocean trail, left Washington early in the morning, stopping over at noon in Baltimore. In the car were Bert G. Smith, automobile editor of the Times; Dell M. Potter, national good roads organizer and John Zak, driving. Piloting the party were Mr. and Mrs. C. Francis Jenkins. Mr. and Mrs. Howard S. Fisk and daughter in another touring car. About a mile from Fok, Md., the tourists were forced to seek shelter at a nearby farmhouse on account of a heavy shower, which occurred about 3 o'clock. The weather cleared after an hour's delay and the trip was resumed, the plan being to get dinner at Belair, Md. In this the entire party was disappointed, and it was decided to push on to Havre de Grace.

Drive Like Mad.

At Belair the party was joined by another car containing Clarence Brown, Thomas A. Devlin and William Knott, who intended piloting the trail-brazers to the Quaker city. Just before reaching this place, however, the motorists ran into a cloudburst. Mr. Jenkins and his party decided to return homeward, and for nearly thirty miles they drove

MRS. BARBER'S ESTATE IS VALUED AT \$350,000

Daughters, on Petition, Are Appointed Collectors by Court.

Mrs. Julia Louise Langdon Barber, who died July 6 on a train en route to Washington, left an estate valued at \$350,000. Her interest in the extensive estate of her husband, Amos L. Barber, the asphalt king, ceased with her death. Under his will she had the income from his estate for life.

The extent of the estate is made known in a petition for the probate of her will filed today. The will is written on several pages of her diary, which, with a copy, was filed last Friday by Attorney H. Prescott Gately. The petition asks that pending the delay in probating the will, collectors be appointed to hold and manage the estate.

Stop at Havre de Grace.

The Times car, which had in the meantime headed in an easterly direction, encountered a similar experience. Almost blinded by the lightning and hail, the westerners headed for Havre de Grace, where they stopped for the night. The occupants of the machine brought out their southerners and rubber clothing and did not suffer as much from inconvenience as the Washington motorists. They expected the meeting end to leave for Philadelphia and end the 4,000-mile tour in New York.

TO FINANCE CHINA.

Plan to Assess Each Chinese Here One Month's Income.

LOS ANGELES, Cal., July 15.—A plan to finance the new Chinese republic by assessing every Chinese in the United States a month's income was started in the Chinese chamber of commerce here last night.

Chinese orators declared that the new republic should not be submitted to the order of having foreigners oversee its treasury, and before a meeting ended more than \$1,000 had been donated.

American Marines Going Into Camp.

CAIMENERA, Cuba, July 15.—Reductions in the marine garrisons throughout the province are being rapidly effected, the men going into camp at the Deer Point naval reservation.

Announces His Losses on Opera.

LONDON, July 15.—The London opera house season ended Saturday night. Oscar Hammerstein, in a speech, said that his losses for seven months amounted to \$225,000. He was an enthusiast and a treasurer, however, he said, and the thought of giving up the beautiful edifice and sinking away was an absolute horror. He was going on to Havre de Grace.

BLUE LAWS BAN ICE.

Baltimore People Forced to Suffer Shortage on Sunday.

BALTIMORE, July 15.—Despite the urgent demand of ice in many homes yesterday, those who were willing to supply the increased demand ran against the ancient blue laws, and Marshal Farnam was powerless to allow the delivery of the needed commodity.

This resulted in the declaration of many persons that they will go before the board of police commissioners and ask that the department allow the sale of ice on Sunday during such hot weather as this was last year during the heated spells.

The police also received requests asking whether or not people of the congested districts would be allowed to sleep on the grass and benches of the parks. The marshal stated that the parks are under the control of the park board, and that it is up to that body to give the permission for the use of the parks for sleeping purposes.

Solves the Problem.

"The Control of Chance" is the title of a story in our next Sunday Magazine on the "element of probability" in human affairs wherein the leading character works out a problem that is presented by a gypsy fortune teller. If fiction were true, this would be amazing proof of the correctness of some of these mysterious things. The author is David Bruce Fitzgerald.

Boys Drown in Swimming Hole.

BUFFALO, N. Y., July 15.—The finding of two little blouses and two pairs of knickerbockers in a bathtub boat tied to a stake at a favorite swimming hole in the Niagara of Squaw Island led to the police announcement early today that Frederick Schultz and Edmund Christ, aged seven and nine, had been drowned. They left home late yesterday without telling their parents.

TRUST SUIT TO REOPEN PATENT MONOPOLY CASE

Wickersham Hopes to Have Full Bench of Supreme Court Render Opinion.

Under way.

Attorney General Wickersham has begun preparations to have the full bench of the Supreme Court of the United States pass upon the "patent monopoly" question.

The issue will be reopened through the anti-trust suit against the "bath tub trust," which has been appealed to the Supreme Court by the defendants, who were ordered to dissolve the "trust" by the United States circuit court for the district of Maryland.

Mr. Wickersham assigned Edwin P. Grosvenor, his special assistant who conducted the case in the lower courts, to take charge of the question in the Supreme Court, which with seven members sitting decided last spring four to three that the owner of a patented article might restrict its use and stipulate the use of certain apparatus. The decision affected several pending trust cases and a great number of monopoly investigations under way.

Before attempting to restrict the "patent monopoly" by legislation, officials are anxious that the full bench of the Supreme Court pass upon the issue.

Strikers Set Fire to Steamer.

BRUSSELS, July 15.—A crisis in the seamen's strike was reached at Antwerp Sunday, when seamen set fire to the steamer Zealand as she lay in her dock. Managers of the Seamen's Syndicate, who it is believed, are in a measure responsible, were placed under arrest immediately after the outrage.

Loses Life Trying to Save Steps.

NEW YORK, July 15.—Robert Hughes' habit of taking a short cut by the fire-escape route on the third floor to the apartment house next door on the upper West Side, where relatives live, thus saving descending and climbing stairs, brought him to his death last night. In stepping from one balcony to another, Hughes slipped and fell to the courtyard and was instantly killed.
