

The Warsaw Gate City

Warsaw, Ill., August 26, 1912

In Saturday's Quincey Herald, describing the recent excursion of the Chamber of Commerce to the Cooper dam, and referring to the reception accorded the uptown delegation with band from the boat, by the various clubs enroute, Warsaw is specially complimented in the following words: "The most enthusiastic reception was given Warsaw where the streets of this little city were lined for blocks with people who loudly applauded the music of the band and the glee club. The march up the long hill into Warsaw was well worth the effort it took by the three Quinceyans who had marched for miles before they reached Warsaw, on the steps at LaGrange, Canton and Alexandria. Delegations of business men met the Quinceyans at each of these towns, and the visitors were cordially greeted."

The Hannibal Elks lost to Warsaw Sunday afternoon, the score being 4 to 0 in favor of our snappy club.

The welcome news was learned Sunday morning that a brick and tile plant is to be located here. Warsaw has the material for making as fine face brick—dry pressed—as can be found anywhere, and there is great demand for the same for which good prices can be obtained. Samples of Warsaw dry pressed face brick may be seen at the office of Dr. Johnston, secretary of the Warsaw Improvement Association, which are sold by experts to be superior to most of the face brick offered builders. The color of the brick is a salmon pink, and they are as smooth as marble. Others have been burned a dark chocolate, and would be fine for ornamentation, or paving, being hard. The supply of the clay is inexhaustible, and can be economically handled, and is accessible to switch. Warsaw has also various kinds of sand useful in manufacture. The Improvement Association would be glad to assist anyone desiring to take advantage of Warsaw's boundless natural resources.

John Rinckel died on Friday, Aug. 23, aged 78, after a long and painful illness. His funeral occurred Sunday at 2 p. m. Rev. H. Kasloke of the German M. E. church, officiating. Further particulars later.

Warsaw had many auto visitors from the three states on Sunday, the roads being fine now, though dusty.

David Ayers and wife of Wythe township will start in about a week for the Pacific coast, taking the northern route, and returning via the southern route. They will make an extended visit among relatives, probably being gone about a month. They will

visit Los Angeles, Cal.; Portland, Oregon; Boise City, Idaho, and other cities. Friends wish them a pleasurable trip and a safe return.

The made-in-Warsaw exhibit closed Saturday night, having received much favorable comment and accomplished much good. The thanks of the exhibitors is due Mr. Elbert Kraehling, proprietor of the Ark Variety, for the interest he evinced and the care he took of the display and the time he devoted to it. It has been suggested that a like exhibit on a much larger scale in a mammoth show window, be a feature of the coming fall celebration, October 10.

Earl Powers, second son of Mr. and Mrs. C. B. Powers, died suddenly yesterday, while on a visit to relatives residing west of Canton, Mo. His death was supposedly caused by an abscess or gathering on the brain. His age was 16. His remains will be brought here for interment. He leaves besides his parents, a brother and sister.

Word came this morning that Mrs. Hebe Durkee of Carthage, but for years a resident of Warsaw, had died at her home in that city. For some time she has been in poor health and a short time ago returned from California. She is a sister of Postmaster Hunt, and has many other relatives both in Warsaw and Carthage. Arrangements for burial have not yet been completed.

Miss Grace Messenger, sister of Mrs. Mollie Messenger Hill of St. Louis, died in that city Saturday last and her remains arrived this morning, the funeral cortege proceeding to Oakland cemetery, where services were conducted by Rev. Jno. F. Mitchell of St. Paul's church. Miss Messenger resided with her parents in Warsaw some years ago and removed to St. Louis from here.

G. W. W. Walker and wife of Los Angeles, Cal., last week, met with a sad loss, in the killing of their son, Knude Walker, a bright youth of 18. He had a good position as clerk in the court house, and had a promising future before him. He was spending his vacation with a party of young friends hunting in the mountains, and was killed by the accidental discharge of his gun; his parents did not hear of his death for forty-eight hours after it occurred. They have the heartfelt sympathy of a host of friends here where they were born, and married, and where their children were born. The deceased leaves two brothers and one sister, besides his parents, to mourn his tragic death.

Wedding Announcement.
An interesting announcement party was given at the home of Mr. and Mrs. G. W. Moseley, 112 Blondeau street Saturday afternoon. The party was given by their daughter, Miss Lottie Moseley at which there were about thirty guests present, all of whom were delightfully entertained. The choicest refreshments were served, and a pretty table feature was a tiny May basket at the plates of each guest containing sweet peas. Nestled among these bright and fragrant flowers was a note announcing the coming marriage of Miss Lottie's sister, Miss Nina Moseley and Mr. E. H. Leake, which is to occur Wednesday evening, September 11, 1912.

Among the out of town guests were Miss Halpin, of Springfield, Ill., and Miss Helen McBain, of Moline, Ill. These with the home guests joined in the happiest congratulations as they read the announcement. The young couple whose marriage is so near, are of old families of Keokuk and are personally very popular in the social life of the city.

Card Party at the Cameron Home.
Mrs. John Cameron has issued invitations for an afternoon at cards, Wednesday, August 28th, at her home 728 Concert street.

Morning Wedding at St. Peter's.
Daniel Harrington, member of one of Keokuk's oldest families, and Miss Susan Cowley, stenographer for Attorney Sawyer, were married this morning at St. Peter's, with Father Gillespie officiating. They will make their home in Keokuk.

M'LOUGHLIN WINS TENNIS TITLES
California Boy Beats Johnson After Latter Had Taken First Two Sets.

[United Press Leased Wire Service.] NEWPORT, R. I., Aug. 26.—Maurice E. McLoughlin, of California, today won the national singles championship, defeating Wallace F. Johnson, of Philadelphia, after the latter had taken the first two sets, at the Casino before a crowd of 6,000. McLoughlin now has the distinction of being both singles and doubles champion, having won both titles here. McLoughlin was a heavy favorite over the former collegiate champion, and his loss of the first two sets was a surprise. He regained his form in the third set, however, and by brilliant playing made it three straight. The scores: 3-6, 2-6, 6-3, 6-4, 6-2.

DIED FROM SHOCK AFTER RESCUE

[United Press Leased Wire Service.] CHICAGO, Aug. 26.—Thomas Burke, a caisson worker, died from the effects of gas fumes, after he had been rescued in a spectacular manner from the bottom of an eighty foot well in the excavation of the new Continental and Commercial bank building here today.

When it was learned that Burke had been overcome by gas fumes from a broken main, Lieut. John T. Monahan, of the Chicago fire department, donned an oxygen helmet, descended into the caisson and while more than a thousand persons looked on, rescued the unconscious man. Burke died within a few minutes after he had been taken from the well.

CITY NEWS.

The coroner's jury which heard the evidence in the hearing over the remains of William Joyce, brought in a verdict that death was the result of causes unknown to the jury, with indications pointing to heart failure, due to the excessive use of alcoholic stimulants.

Al Fields, the policeman who suffered a broken shoulder in the street car accident a couple of weeks ago was at the station today for the first time since he was injured. He is still carrying his arm in a sling and will probably be out of uniform for a month longer.

Lilley will deliver a special sermon to the different labor organizations of the city.

Boost for the new hotel. Property owners all over the city will be benefited but those especially so who have property in the block in which the handsome new building is to be built. Keokuk cannot afford to let this project fail. If Keokuk fails to meet this opportunity property will depreciate. It's a plain proposition.

Mr. and Mrs. H. R. Moore, of 1303 Orleans, are the proud parents of a baby girl, born last Friday afternoon.

The notice of the civil service examination for stenographers and typewriters has been issued and states that the next examination conducted in Keokuk will be held October 7, in the postoffice. The application for blanks should be made not later than September 27.

Motorcycle on Fire.
[United Press Leased Wire Service.] GARY, Ind., Aug. 26.—Miss Esther Smith, 19, is believed to be dying here today and Roy Roberts, 21, a steel worker, is in the hospital in a critical condition as a result of burns sustained when the motorcycle which the two were riding caught fire.

It is believed a spark from the engine set the girl's clothing on fire and the flames, fanned by the wind of the swiftly moving motorcycle, enveloped Miss Smith and her companion before the machine could be stopped.

Passengers on a passing interurban car extinguished the flames and rushed the victims to the hospital.

Carl Toft, age 25, and Mary Wardlaw, age 19, both of Keokuk.

Lawyer Had Enough.
A badgering lawyer was examining a doctor in an assault case, says the New York Sun. The solicitor represented the defense, and the doctor testified that he treated the prosecutor for a black eye. "What do you mean by a black eye?" queried the legal gentleman. "I mean," said the doctor, without a smile, "that the prosecutor had received a severe contusion over the lower portion of the frontal bone, producing extensive ecchymosis around the eye, together with considerable infiltration of the subjacent areolar tissue." The medical witness was relieved from further cross-examination.

Would Not Part With Dog.
Not only in England and America, but in Germany, fanciers pay high prices for dogs. At the recent exhibition of dogs at Cassel a Frenchman offered \$2,000 for a police dog. Daily Stock Letter.
[Copyright, 1912, by New York Evening Post Co.] NEW YORK, Aug. 26.—On the stock exchange, the week opened with continued indifference and apathy; on the money market, there were some signs of gradual response to the outflow of currency to the harvest states and the consequent weakening of the bank position here. Since Saturday's bank figures were compiled, the New York banks have sent out, according to the daily sub-treasury returns, a million and a quarter more than they shipped in the corresponding period of last week. It continued at the present rate, this would mean a loss of some fifteen millions on the same account for the whole of the present week. A slight recovery in New York exchange at Chicago today, however, suggested a possible temporary slackening of this interior demand. Ordinarily, it is the Wall street call money rate which reflects a heavy movement of the sort at this time of year, but the complete inactivity of the stock exchange causes very slight demand and the banks are willing enough to leave invested in demand loans for the present that part of their resources which must be shown to meet the larger interior requirements later on.

FAITH OR WORKS; WHICH SAVES US

God Developing Most Wonderful Creation In Universe.

A Question Long in Dispute is Now Clear Through a Better Understanding of Bible—"The Path of the Just is as the Shining Light, Shining More and More Unto the Perfect Day."

London, August 4.—London Tabernacle was crowded, as usual, twice today to hear Pastor Russell. We report one of his discourses from the text, "Not of works, lest any man should boast; for we are His workmanship."—Ephesians 2, 9, 10. If the Bible taught that salvation would be the reward of good works, it would harmonize better with the common conception. Why should God specially reward faith? Why should He not specially reward good works? The answer to this question can be appreciated only by an understanding of the future, as well as of the present, of the Divine Plan, said Pastor Russell. In God's general dealings with angels and with men, His principle is to reward works, obedience. God's exceptional dealings are with the Church—for special reasons, which we shall see.

During Messiah's glorious reign, for which we pray, "Thy Kingdom come," the world in general will not be on trial so much for faith, but rather for works—as we read, "They shall be judged, every man according to his works." This obedience to the laws and regulations of Messiah's Kingdom will be rewarded by gradual restitution to perfection. With every exercise of righteousness and obedience will come the reward of strength of mind and body.

The Church Walks by Faith.
But how different matters are now! said Pastor Russell. Everything is dark, except as the eye of faith can see more or less obscurely in the light of God's promises and the types of the past. "So," said the Apostle, "we (the Church), walk by faith and not by sight." St. Peter declares that we should take heed to the word of prophecy as a light in a dark place while waiting for the dawning of the New Day (II Peter 1, 19). We are very near to that New Day now, but we still need the light of the Lamp, the Word of God, and it is shining more clearly than ever before. It is showing us the explanation of our text, that the Church is not being judged or tested according to works, but according to her faith.

In the present time perfect works are impossible anyway, because of our imperfection through heredity from the fall, and because of the imperfection of all in contact with us in the affairs of life, and because of the evil influence of Satan and the fallen angels—"seducing spirits"—I Tim. iv, 1.

It is when the believer reaches the point of a full consecration of himself to God that Jesus becomes his Advocate with the Father and imputes of His merit as a covering for the sinner's blemishes, and thus makes Him acceptable to the Father as a living sacrifice and footstep follower of the Master and prospective heir of God and joint-heir with Jesus Christ his Lord.

We Are God's Workmanship.
However, as soon as the Father has accepted the sinner, as soon as he has been begotten of the Holy Spirit as a New Creature, old things are passed away, and thenceforth he may do works—must do works indeed. If he does not do works he will die spiritually. But the old creature, the sinner, can do no works to merit Divine approval. His faith in the Redeemer makes him acceptable. As a New Creature he has no sins to be forgiven. The New Creature has no heredity from the past, but may cry, "Abba, Father." As a son the New Creature is permitted to work and must be about his Father's business—must seek first the interests of the Divine Kingdom.

The Church Class is God's New Creation. In the remote past He created the thousands of millions of worlds, samples of which may be witnessed on a starry night. But with all their immensity they were as nothing to His new creation of angels in various orders, and later, the creation of man, of the earth earthy. Even the smallest insect is a greater creation than the creation of an inanimate world, because the insect has will, volition, soul, of its own. God having created all these other things, at last proposed the creation of a still higher order of beings than the angelic, who are soon to be "partakers of the divine nature."—II Peter 1, 4.

For more than eighteen centuries God has been working on this New Creation. First of all, Jesus, the great Messianic Head, was made perfect through sufferings, prepared for this divine nature and received to it in His glorious resurrection. Since Pentecost God has been accepting by the begetting of the Holy Spirit such of humanity as avail themselves of the glorious privilege of this Age. Only those possessing faith can be of this class. To all others the invitation and glorious description of the heavenly nature are foolishness.

Keokuk policemen were notified today to be on the lookout for Jesse Hill, who made his escape today from the Burlington police. Hill made his escape while at work on the rock pile. He was arrested here a short time ago, after having made away with a coat and pearl stud belonging to a Burlington man. He was working on the steamer G. W. Hill at the time, and was accompanied by a young woman from Alexandria, Mo., when arrested. He claimed he was to be married to the young woman September 15. He got thirty days in jail for the theft.
