Horoscope

THURSDAY, OCTOBER 15, 1914.

Astrologers find this a day of contrary influences, for Saturn rules strongly for good, while Venus is adverse. It is a time when conservative, prudent and diplomatic ideas should be entertained and success in negotiations upon which great events hinge is more likely to be attained while this configuration prevails.

Building, repairing and dealing with real estate agents are subject to fortunate conditions today. There is a sign presaging large profits to shoemakers, harness makers and all who sell leather.

Elderly persons are under a kindly sway when Saturn is in benefic aspect. Fame is promised an aged financier, who will do a public service.

The adverse rule of Venus is interpreted as a warning that women will have "many cares, much anxiety and exacting work."

This is not a lucky day for weddings or for any entertainment at which men and women meet.

Milliners and modistes are subject to conditions that demand extraordinary business ability.

Under this government it is wise to refrain from excesses of every sort. Eating and drinking should be moderate, as this aspect is conducive to disease of the digestive tract.

Fires may be unusually numerous. Danger from explosives and electrical apparatus is increased under this rule, the seers declare.

Reforms in prison management and discipline again are indicated by the stars.

Educational matters are coming under a direction which promises a year of good results. The small colleges should prosper.

Mars is in a place in the horoscope of the Queen of England, which presages a brief period of ill-health.

The death of a young soldier of royal lineage is prognosticated. Sorrow will enter a palace, astrologers say.

Persons whose birthdate it is have the augury of a quiet year that is not altogether prosperous. Disappointment concerning domestic affairs is presaged.

Children born on this day may be inclined toward carelessness and lack of self-respect, but they are likely to be clever and lovable. They usually marry young.—(Copyright, 1914, by

HARRY LAUDER WILL NOT PLAY IN OGDEN IN 1914; TWO DAYS IN SALT LAKE.

Harry Lauder, the wonderful Scotch comedian to whom Ogden tendered so warm a welcome last time he was West, will not be able this year to appear here. His bookings make it necessary for him to cover the country from coast to coast in five weeks from the day he arrives in Salt Lake City. He has with him his international company of specialty artists, all of whom accompanied him to and from the Antipodes, where his first appearances were like carnival greetings to a conquering potentate rather than a comedian. The fact that Lauder's classic tunes are being played on all the battle-fronts of Europe for the British soldiers has made Lauder more than ever the idol of the people.—Advertisement.

fastening is accomplished by carrying the right side of the frock or coat over to the left side to fasten there is a straight line from shoulder to hip. Either a rolling or a flat turndown collar is used.

Silk and taffeta will be used for the collars made to wear with the fall and winter suits.

BETTER POTATOES.

Potatoes boiled in their skins make nicer salad than those pared raw. Cold baked potatoes likewise make better fried potatoes than when cooked, raw or boiled.

MAYONNAISE IS EASILY MADE.

There is the popular idea among amateurs that mayonnaise making is difficult and uncertain of results. It really is simple. Curdling is the chief thing to avoid. To remedy, add a bit of ice, removing it before it can melt, and beat in the stiffly beaten white of eggs. Other precautions to prevent curdling consist in adding the salt last and the lemon, or vinegar, before the oil.

FASHION BITS.

The seven-eighths coat is the newest coat shown with the tailored suit. This coat is thought to be of the length that will prevail for winter.

All the smart new coats have a high neckline and many of them close at the left side. Usually this

Today Pastor Russell preached from the text, "For the great Day of His wrath is come; and who shall be able to stand?" (Revelation 6:17) His topic, "Armageddon," is well illustrated by famous cartoons, many of which are reproduced in The Photo-Drama of Creation, now on exhibition in our large cities.

God has given us the Book of Revelation, the speaker declared, with the intent of covering up important truths not due to be understood until His appointed time. Being a book of symbols, it will not be understood by mankind in general; but we are assured that the wise amongst God's people shall understand.—Daniel 12:1-10.

Don't Be a Victim of Substitution

There is but one genuine ROUND OAK stove. For over forty years the Round Oak Folks have concentrated their efforts in the production of this heater, which is today, in principle, scientifically correct. The prestige of this stove has stimulated over one hundred other manufacturers to imitate it in appearance and name, but as every imitation is always inferior to the original, so has it been with the imitations of this strong, simple, durable heater, which has always "delivered the goods."

Burns all fuels successfully and economically. Holds the fire forty-eight hours, and gives a lifetime of service. So well recognized is the prestige and value of this stove, that after fifteen or twenty years of service, it brings more, second-hand, than cheap imitations do on the dealer's floor.

Insist on securing the original. We recommend and sell it.
