

BOYS ROB WOMAN, ARE SOON CAUGHT AND ADMIT GUILT

Youthful Highwaymen Are Given a Hearing at Rockville.

ROCKVILLE, Md., July 6.—As Miss Mary Merritt, whose home is a few miles from Rockville, was driving along the Frederick road near Rockville a few evenings ago, she was stopped by Maurice Gibbs and Upton Gibbs, colored, aged seven and fifteen years, respectively, and while one of the boys questioned her about butter the other grabbed a hand satchel and ran. The satchel contained a silver watch and several other articles of small value.

The youthful highwaymen were given a hearing here yesterday and in default of bail to the amount of \$500 the older boy was committed to jail to await the action of the November grand jury. The younger boy was released on \$100 bail. The boys admitted their guilt. The satchel and contents were recovered.

Louis Pratt, the thirteen-year-old colored boy who confessed to setting fire to a barn on the farm of J. Clinton Eusey, near Brookeville, this county, a few weeks ago, but who maintained that it was an accident, has been committed to the Maryland House of Reformation to remain until he attains his majority.

The State fire marshal who investigated the case, was reluctant to prefer a charge of arson against the boy because of his youth, and agreed to allow the boy to be committed to the House of Reformation, as requested by his father, who represented the boy to be incorrigible.

The will of Miss Catherine Stabler, a well-known resident of Olney district, who died recently at her home near Sanly Spring, has been admitted to probate in the orphans' court here. It disposes of an estate valued at \$20,000, and makes bequests in amounts ranging from \$50 to \$2,000 to a large number of relatives in this county and Baltimore city. Edward Stabler, of Baltimore, is named as executor.

A license to marry has been issued by the clerk of the circuit court here to Carter Hill, aged twenty-one, and Miss Alice A. Tydings, aged twenty, both of Washington.

The Washington and Gettysburg Railroad Company, being unable to agree upon terms with land owners in the eastern section of this county, has instituted condemnation proceedings in the circuit court here to acquire rights of way through the lands of John C. Yeabower, Mrs. Martha Collins, Richard Seek, Mrs. Kate Beall, James H. Scott, and John H. Brown. The rights of way are desired for the construction of a railroad from Washington to Gettysburg.

GIBSON POSTER TO AID TITANIC FUND

Hotel and Restaurant Men Will Help Women's Memorial Committee.

The big hotel and restaurant proprietors of Washington have agreed to lend their aid to the project of the woman's Titanic memorial to create in the National Capital a majestic arch to the men who died to save women and children.

Practically every big place of public entertainment in the city will display tomorrow in their lobbies and dining rooms a large poster designed for the memorial by Charles Dana Gibson. Packages of coupons attached to the poster will furnish information about forwarding contributions to all attracted by the beauty of the drawing.

One of the posters was hung yesterday in a popular downtown restaurant just as the patrons of the cafe were assembling for dinner.

Curiously enough, the first three coupons torn from the package were taken by men. Practically every woman in the dining room followed suit, however, and if all the coupons taken result in contributions, a considerable sum of money will reach the memorial as the result of one evening's display of a single poster.

Lost Boy Found by Father; Slept in Woods

Isadore Alex, the twelve-year-old boy of 1015 Eighth street northwest, for whom a wide search was instituted for at Marshall Hall Thursday night and yesterday morning, was found by his father, Maurice Alex, yesterday afternoon. Becoming lost in the woods Thursday night in the big crowd that was returning from the river resort, little Alex failed to catch the boat.

According to his own story, he went to sleep on a bench, and finally, in his slumbers, wandered off into some nearby woods, where he awoke about 2 o'clock. He said his cries attracted the attention of a man who cared for him until his father came down yesterday.

Capital Party to Leave on Motor Trip

A Washington party, comprising Mr. and Mrs. Joseph Strasburger and their places, Misses Frieda and Emma Sasa, leave tomorrow on a motor trip through New York and New England.

They will spend two or three weeks on the tour, making a long journey into the White Mountains.

Miss Murray on Stage.

Miss Estelle Murray, who was recently seen in Miss Slieve's May carnival in this city, assumed the role of Mimi in the "Japanese Wedding," which was produced by the Washington Columbia Dramatic Company at Purcellville, Va., July 4. She also sang two songs by request.

Spend the Evening on Raleigh Roof Garden. Unique, airy, cool. Music, dining service. Admission by card only. Adv.

6.50 to Mountain Lake Park and Return. Baltimore & Ohio R. July 12 to B. valid for return until July 18.—Adv.

DR. VAUGHAN, 207 Seventh St. N. W.

12 Years a Washington PRIVATE DENTIST for the LARGEST and MOST POPULAR PRICES. Positively White Patrons Only.

GLEN ECHO MECCA OF FOUR THOUSAND BIBLE STUDENTS

Delegates From All Over United States and Canada Gathering.

Four thousand delegates, representing every State in the Union, and province of Canada, are in the city today to attend the general convention of the International Bible Students' Association, which begins an eight-day session at Glen Echo auditorium tomorrow morning at 9.30 o'clock.

Twenty public speakers are scheduled for addresses during the eight-day program, and various well-known Bible class leaders will participate in the program.

Methods for conducting Bible class study, and how to do individual evangelism, will receive special attention in the convention.

Special Schedule Arranged. The delegates are quartered at local hotels and will go to Glen Echo each morning. The Washington Railway and Electric Company will provide a special schedule during the coming week in order to handle the big crowd promptly. The sessions will be held in the auditorium of the park, which has a seating capacity of about 7,500. In addition to the large number of visitors, hundreds of Bible students from the different churches in Washington will attend.

J. F. Rutherford, of New York, will preside over the convention. One of the distinguished persons present will be Pastor Russell, of the Brooklyn Tabernacle, who will make a number of addresses during the meetings. The officers of the association are Pastor Russell, president; A. I. Ritchie, of New

York, vice president, and E. W. Brunnelsen, of Dallas, Tex., secretary.

Convention Opens Tomorrow. The convention opens at 9.30 o'clock tomorrow morning with an address by Mr. Rutherford. There will be two short talks during the morning. A recess from 11 until 2 will be taken. The last meeting of the day will be at 7 o'clock with an address by B. H. Barton.

During the week the latest meetings will be at 3.30 o'clock. The hours have been so arranged as not to be in conflict with the crowds at Glen Echo.

The International Bible Students' Association is so called because it is made up by Bible students of various countries, who pursue an independent or non-sectarian line of Bible study. They take up each individual doctrine or subject as a topic and accept the Scripture teaching in its entirety as their creed. They refuse to indorse or become a party to any denomination propaganda and spurn any attempted restraint upon individual Bible study or interpretation.

Sylvester to Attend Police Convention. Major Richard Sylvester, superintendent of police, and Logan Wallis Page, of the Division of Good Roads, Department of Agriculture, will attend the international convention of police chiefs, to be held in Toronto this week. The former leaves the city today.

The delegates from the United States include Police Commissioner Waldo, of New York.

Young Woman Hurt In Fall From Horse. While riding with several friends near Fort Myer, yesterday, Miss Helen Kerns, 26 L street northwest, was thrown from her horse and severely bruised. Miss Kerns was using a side-saddle, and when the girl slipped the saddle turned, frightening the horse to such an extent that his plunge forward threw the rider to the ground.

Miss Kerns was not seriously injured, and it was less than an hour until she was able to go home.

\$1.00 to Harper's Ferry, Charlestown, and Winchester, and return, Sunday July 7th. Leaves Union Station via Baltimore & Ohio, at 8:00 a. m.—Adv.

Lieut. Rockwell Joins Army Fliers at College Park. Latest Recruit to Aviation Squad Will Begin Lessons Today.

Lieut. L. C. Rockwell, recently detailed for aviation duty in the United States army, joined the fliers at College Park, Md., this morning. Upon his own request he has been assigned to the Wright and Burgess-Wright hangars, and shortly will start his lessons in flying the warping-wings machine.

With the addition of Lieutenant Rockwell there are but nine officers at the school. It is the plan of Brig. Gen. James Allen to have ten aviators there. He is anxious that a man be detailed to fill the vacancy created by the death of Lieut. Leighton W. Hazlehurst, Jr., killed in a fall three weeks ago, but the prospects for getting a man just now are not so bright.

There now are the following officers at College Park: Capt. Charles DeForest Chandler, commanding officer; Capt. Frederick B. Hennessy, Lieut. Roy C. Kirtland, Henry H. Arnold, Thomas DeWitt Milling, Frank M. Kennedy, Harry Graham, Harold Geiger, and Lieutenant Rockwell.

Lieutenants Geiger and Graham shortly will blossom out as full-fledged aviators. They both are learning to fly the Wright and Burgess-Wright machines, and the coming week will see them skipping about in the air by themselves.

Capt. Frederick B. Hennessy, the latest member of the school to learn, is making flights by himself each afternoon.

There will be a number of flights this afternoon. Capt. Paul Beck, recently ordered back to his regiment, probably will make his last flight at College Park today. Captain Beck is on a three months' leave of absence, but has been spending that time at the park flying his old Curtiss machine.

When You Buy A Home of Sunlight and Ventilation You Are Making a Wise Provision for The Future As Well as Taking the Best of Care of The Present

THESE HOMES OF SUNLIGHT AND VENTILATION appeal to all, and in that appeal lies their great value. They are modern in the fullest sense of the word and designed along lines that will be appreciated by future generations just as they are by the present generation.

The ground on which these HOMES OF SUNLIGHT AND VENTILATION are built is so well located that it will increase in valuation as the years go by. This means that your home will increase in value, and put you in a position where you can realize a profit on your investment should you ever desire to sell.

The location of these HOMES OF SUNLIGHT AND VENTILATION is on Spring Road and Perry Street, where they intersect 14th Street in the heart of fashionable Columbia Heights, with its high elevation and fine residences.

As the name implies, these HOMES OF SUNLIGHT AND VENTILATION were designed for the health and comfort of the occupants—and health and comfort means family happiness—and family happiness means everything.

We will mention one single feature that indicates the superiority of the HOMES OF SUNLIGHT AND VENTILATION throughout, and that one feature is parquet floors all over the house. Homes generally reach the \$10,000 figure before parquet floors appear upstairs as well as down. We will go on and mention another feature—you have your choice of the world's two best heating systems, hot water or hot air.

We could go on naming these special features one after another that characterize the HOMES OF SUNLIGHT AND VENTILATION until we had filled every page of this newspaper and would still have more to tell you. But why do this? The convenient location should induce your immediate inspection.

The fact that you can buy one of these homes with the money you are now paying for rent should not be overlooked, but given very serious consideration. The prices are \$5,000 and \$5,200, whether you pay cash or take advantage of the SHANNON & LUCHS easy payment terms, that are no more, if as much, as the homes would rent for.

\$500 is all the cash required, and in cases where \$500 cash is not convenient we are prepared to make special arrangements with the purchaser. After the first cash payment you are required to pay but \$38 per month (which includes all interest). This makes \$456 per year, and you can readily figure how soon you will have your home entirely paid for.

Take any 14th Street Car to Corner Spring Road.

No Matter Where You Work IT IS CONVENIENT TO THESE COLUMBIA HEIGHTS HOMES

On Columbia Road at Sherman Ave. N. W.

YOU CAN OWN ONE FOR

\$150.00 CASH and \$22.50 Per Month

The Full Price Is \$2,750

Washington has never seen anything like the quality of these homes anywhere, under around the \$4,000 figure—as you can readily see by the picture and the fact is emphasized even more when you see the homes themselves. Their value is greatly increased by the fact of their superb location in fashionable Columbia Heights, and accessible by three double-track car lines—14th street, 11th street and 9th street.

The interior consists of a practical arrangement of six full rooms and perfectly appointed bath. This interior arrangement is made with an idea to both the artistic and the convenient. The finish is of hardwood throughout and the entire home is equipped with all conveniences so necessary to modern housekeeping, including gas and electric lighting attachments ornamented with beautiful art fixtures, a modern heating plant in the brick and cement cellar, and a completely equipped kitchen with cupboard, gas range, sink, etc.

This newest of all SHANNON & LUCHS home buying opportunities is duplicating the other home buying success of this firm. Although first announced for sale some time ago, only a few of the completed homes are for sale—the others all having found eager purchasers. An immediate inspection is necessary lest you should be too late to secure one of the homes ready for immediate occupancy.

Looks Like \$4,000—Costs But \$2,750.

TO INSPECT—Take any 11th Street car going northwest, get off at Columbia Road and walk one square east; or any 14th Street car going northwest, get off at Columbia Road and walk three squares east; or any Ninth Street car going northwest, get off at Columbia Road and walk one square west.
