

THE FARGO FORUM And Daily Republican.

FORUM PUBLISHING COMPANY.

Entered at postoffice as second class matter.

VOLUME XXXVIII, NO. 147.

The Fargo Forum and Republican is published every evening except Sunday in the Forum Building, corner of First Avenue and Fifth Street north, Fargo, N. D.

TUESDAY, MAY 9, 1916.

BACK-YARD GARDENS.

"Home gardening makes for love of home and nature and reduces the high cost of living." This is the way Park Commissioner Ingersoll of New York city put it when urging the people of the country's metropolis to plan a back-yard garden.

Why is it that the country-bred youth often comes to the city and out-distances his city-bred cousin? Perhaps if the truth were known it is because the country boy had a definite task to perform during his boyhood. The boy who grows into his teens, never having had the least responsibility, is handicapped for life.

Everyone can have a garden in his back-yard, if it is nothing more than a few feet square. The New York commissioner has issued a leaflet with suggestions for back-lard gardening which apply in Fargo as fully as in New York. The suggestions follow:

- 1. Clear the yard of all rubbish, sticks, stones, bottles, etc. 2. Choose the sunniest spot in the yard for a garden. 3. Dig up the soil to a depth of 6 to 18 inches. Break up all the lumps with the spade. 4. Add food material to the soil. Spade into the ground 2 to 4 inches of well rotted stable manure, or spread over the surface of the ground a commercial fertilizer such as sheep manure or wood ashes, and rake into the ground. (Four pounds to a plot of 12 by 24 feet.) 5. Rake the ground smooth for planting. 6. Stake the garden off with sticks and cord so as to protect it from being walked down. 7. Lay out the garden in rows and paths. Keep the rows straight. 8. Sow both vegetable and flower seeds. Plant the seeds in furrows, hills, or drills. 9. Thin out the plants when they are about 3 inches high, so that the rest of the crop will have room to grow. 10. Begin to break up the hard surface of the soil between the plants when they are about 2 inches high, with a small stick, hand cultivator or hoe. This is called cultivation; it kills weeds, it lets in air to the plant roots and keeps the moisture in the ground. 11. Water your garden either very early in the morning or after sundown. Never when the sun is shining hot.

THE MAN RESPONSIBLE.

If a man saves twenty lives and then is compelled to take one life in self-defense, has he not earned immunity from punishment by society? And who is responsible? Collier's Weekly discussing this interesting though tragic incident says:

Nicholas De Ray is a hotel engineer in Atlantic City. Two months ago his skill and courage saved a score of lives in a lodging-house fire. Now he is in jail because he killed a man in self-defense. His friend, Vernon Lewis, came in crazy drunk one Sunday morning and tried to choke De Ray to death when the latter gave him his orders. Lewis was the stronger man and some fifty pounds heavier. De Ray tried to stand the whiskey lute but with a jackknife, and in their struggle the blade was driven home to the would-be slayer's heart. Lewis, where in Peoria, Baltimore, or Louisville. He is respectable and a leading citizen. Why should the blood spilled on that basement floor mean anything to him?

PHILIPPINE TRADE.

Recent discussions regarding the Philippine islands lend interest to a compilation just prepared by the foreign trade department of the National City Bank of New York, showing the total trade of the United States with those islands in the sixteen years since annexation, compared with the sixteen years immediately preceding annexation.

This compilation shows that the total exports from the United States to the islands in the sixteen years since they were annexed aggregate \$201,000,000, against a little over \$2,000,000 in the sixteen years prior to their annexation. Prior to annexation the exports to the Philippines seldom reached as much as \$200,000 per annum. In the first year after annexation the exports to the islands amounted to \$2,500,000 and steadily increased until they have averaged \$25,000,000 per annum in recent years, having been in 1914 over \$27,000,000.

The imports from the islands, which averaged less than \$5,000,000 per annum in the decade prior to annexation, now average about \$25,000,000 per annum. The total imports from

the islands in the sixteen years since annexation are \$218,000,000, against \$121,000,000 in the sixteen years preceding annexation, though in the five years preceding annexation the average was but about \$4,500,000 per annum.

The Philippine islands were acquired April 11, 1898, and therefore the fiscal year ending June 30, 1900, may properly be considered the first year of the annexation period, and the trade of the fiscal year ending June 30, 1899, may be considered as belonging to the period preceding annexation. The total exports to the Philippine islands in the sixteen years beginning with the fiscal year 1900 and ending with the fiscal year June 30, 1915, were \$201,004,688, while the total exports to the islands in the sixteen years prior to annexation were \$2,506,837. The total imports from the islands in the sixteen years since annexation are \$217,716,383, and in the sixteen years prior to annexation \$120,747,318, though in the five years immediately preceding annexation the imports of the islands averaged but about \$4,500,000 per annum.

AMERICAN INDIAN DAY.

Having exhausted almost every other source for the observation of special days it occurred to someone to remember the original American and the second Saturday in May has been designated as American Indian day.

The Indian population of the country has been increasing in recent years, under the fostering care of the government and since the Indians have learned to live the white man's way without confining themselves in dark and airless homes. It is estimated that the Indian population in 1914 was 333,124 as against 256,127 in 1880.

The Indians are not only learning how to live under the regulations of civilization, but they are beginning to emerge from the reservations and to take their places in the industries and professions.

DAYS OF REEL LIFE.

Minneapolis Journal: Columbus, N. M., is enjoying the business boom of his career. Since the Villa raid, life in Columbus has been a moving picture show.

TRIUMPH FOR PROHIBITION.

Commerce and Finance: A Portland, Oregon, dispatch says a tailor of that city has taken \$80 worth of furs in the waistbands of toppers since Jan. 1, when statewide prohibition became effective.

STARTED SPRING DRIVE.

St. Louis Globe-Democrat: In this presidential candidacy certainly T. R. is not too proud to fight.

A PASSABLE SOLUTION.

Minneapolis Tribune: One-fifth of the employees of the United States Steel corporation are now stockholders in the enterprise. That promises one method of solving the conflict between capital and labor.

\$700. Studebaker Cabriolet, overhauled and repainted; electric lights and starter.—Ball Auto Co.—Adv.

Amusements

Strand

The best element of the race track and the church have been combined in the Strand Amusement. De Luxe edition, The Drifter, a live act racing drama, produced by Gaumont, which will be shown at the Strand theatre on Wednesday and Thursday.

Grand

The Three Juggling Bananas opened a show supreme at the Grand. It was an artistic and dexterous manipulation of juggling clubs. The boys keep up a rapid fire talk during their act, which adds some good, clean comedy to it. The way they handle the clubs is wonderful.

Ed Schlenberg and H. E. Budweller autored to Napoleon Tuesday in the new Ford which Mr. Schlenberg purchased to do the bank work with.

STREETER

Streeter, N. D., May 9.—C. W. Spaulding spent the fore part of the week at Fargo, returning Wednesday.

HEADACHES

Thousands of men and women suffer from headaches every day, other thousands have headaches every week or every month, and still others have headaches occasionally, but not as regular intervals. The best doctor is often unable to find the cause of many of these headaches, and in most cases, knowing the cause, he does not know what to remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headache returns as usual, and treatment is again necessary. If you suffer from headaches, or in many cases, the attack will be satisfied in the highest degree. You can obtain them as follows: Write for the words 250 words or more. Ask for A-K Tablets.

SICK-HEADACHES

Sick-headache, the most miserable of all sicknesses, loses its terrors when A-K Tablets are taken. When you feel an attack coming on take two tablets, and in many cases, the attack will be warded off. During an attack take one A-K Tablet every two hours until the pain and discomfort is warded off. Write for the words 250 words or more. Ask for A-K Tablets. Genuine A-K Tablets bear the K monogram. At all druggists.

North Dakota Kernels

The hands over the state are getting very active.

The Home Oil Co. is putting in a station at Sentinel Butte.

The village dads of Cleveland have decided to fence in the city park.

It begins to look as though Penn would have a baseball team this year.

A new piano has been added to the equipment of the new auditorium at Cando.

Walhalla's chautauqua will be held on July 2 to 12, a big program being outlined.

There is big demand for houses at Cavalier. There is not a house or a room for rent in the town.

The opera-house at Havana has been improved and modernized by the installation of two cloak rooms.

At Portal J. B. Parsons has built an addition to his barn and had added two more teams to his dray line.

The baseball fans at Walhalla have organized and have arranged for a benefit ball, to be held on May 15.

At Cleveland the village council is working on a franchise for the plant that will soon be erected at that place.

The Citizens' State bank at Flaxton has increased its capital stock to \$25,000 to meet the needs of its growing business.

Carelessness in setting grass fires has been reported from over the state. Considerable damage has already been done.

A short term of the district court will be held at Stanley on May 26 for the purpose of considering applications for naturalization.

The Havana schools held an exhibit of the year's work, the display far exceeding the expectations of the patrons who were present.

A fire which started from a straw stack burned by a volunteer fire company northwest of Steele burned a barn on the Thomas Filbin farm.

The new state maps, which are put out by the department of geology under the direction of Commissioner Flint, are much in demand over the state.

At Cleveland carpenters have commenced the work of remodeling the Norfolk hotel. When completed the hotel will contain sixteen guest rooms.

Portal will have a fast ball team in the field during the season in the opinion of the fans. At present \$500 has been subscribed and there is more money in sight.

At Portal work has started on the erection of the postoffice building. The building will be partitioned, the post-office boxes on one side and Briggs' jewelry store on the other.

The old steam fire engine that was replaced by a new pump for fire protection at Minot, is being sold as scrap dealer. The copper and brass alone represented quite a sum.

On account of ill health, County Commissioner Dronen of Steele county has resigned his position. An election by the board will be held in the near future to fill the vacancy.

At Sheyenne the blacksmith shop and garage south of the Williams livery barn has been torn down and will be replaced with a large cement structure to be used for the same purpose.

The Burke County Fair Agricultural association has made arrangements for the purchase of the site for the fair grounds. The grounds will be located three-quarters of a mile north of Flaxton.

While playing around a feed mill the little 4-year-old son of Mrs. Ed. Larvick of near Temvik, got one of his fingers caught in the gearing. The finger was terribly mangled and a portion of it taken off.

The Lawton Republican says: Auto-phobia has sprung out here and at Brockport this broken, and strange thing is that accidents and health officers make no attempt to stop it, but rather encourage its spread in the neighborhood.

The Mother's club of New Rockford will give a supper at the Methodist church Friday, May 12, for the purpose of raising funds to pay for the new swings to be erected on the playgrounds.

O. S. Hall has resigned his position as agent of the Occident Elevator Co. at Flaxton and will devote all his time hereafter to the interests of the Standard Oil Co. Fritz Jensen of Bowbells, has accepted the position with the Occident Elevator Co.

Oluf Meyers will commence excavating for the foundation for a 50-barrel flour mill at Flaxton at once. The machinery for the building arrived some time ago and the lumber for the building is expected to arrive by the time the foundation is completed.

The Cavalier Chronicle says: About a half dozen of high school boys were temporarily expelled from school for trying to add a live sociological department to the school curriculum without permission from the board of education.

Mrs. Paul Kietzke spent Thursday at Edgely on business between trains.

Mrs. Mary E. McGinnis, superintendent of schools, and M. J. Severn were in town Monday transacting business and looking over the political situation.

Ed Schlenberg and H. E. Budweller autored to Napoleon Tuesday in the new Ford which Mr. Schlenberg purchased to do the bank work with.

Mrs. Mary E. McGinnis, superintendent of schools, and M. J. Severn were in town Monday transacting business and looking over the political situation.

Ed Schlenberg and H. E. Budweller autored to Napoleon Tuesday in the new Ford which Mr. Schlenberg purchased to do the bank work with.

Mrs. Mary E. McGinnis, superintendent of schools, and M. J. Severn were in town Monday transacting business and looking over the political situation.

Ed Schlenberg and H. E. Budweller autored to Napoleon Tuesday in the new Ford which Mr. Schlenberg purchased to do the bank work with.

Indigestion May Be Due to Constipation

Neglect of Important Function May Seriously Impair The Health.

There are many people who believe they suffer from indigestion when their discomfort really is due to a constipated condition.

It is its attendant mental depression, sick-headache, the periodic pressure, sick-stomach, gases, etc., are frequently due to inaction of the bowels. Relieve the congestion and the trouble usually disappears. The use of cathartics and purgatives should be avoided, however; these shock the system unnecessarily and, at best, their effect is but temporary. A mild laxative is far preferable.

The compound of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin and sold in drug stores for fifty cents a bottle, is highly recommended. Mr. J. J. Bassin, 360 Madison St., Gary, Ind., writes Dr. Caldwell's Syrup Pepsin a wonderful medicine; for four years he had a severe case of indigestion and constipation before trying Dr. Caldwell's Syrup Pepsin, which he is glad to recommend to all who suffer with stomach and bowel trouble.

A bottle of Dr. Caldwell's Syrup Pepsin should be in every home for use when occasion arises. A trial bottle, free of charge, can be obtained by writing to Dr. W. E. Caldwell, 454 Washington St., Monticello, Ill.

AFTER THE WAR

The moment the war is over there will be such an invasion of Europe by Americans as Europe has never experienced. Americans are burning with curiosity to see for themselves the devastation that the war has wrought in the various sections, especially in France and Belgium. Many that have been accustomed to visit the old world every year or at other regular intervals will seize the first opportunity to visit again the old haunts that will have been denied them for two years or more. The period of prosperity enjoyed by the United States while Europe suffered will furnish with funds for traveling many that never before left this country. Many circumstances will combine to draw more Americans from the United States than ever left the country at one time.

It cannot be said with justice that these Americans will be actuated by mere idle curiosity to witness the suffering of other people. Legitimate interest in the condition of Europe will inspire them. They will have a real and perfectly justifiable desire to go over the battlefields where the fate of Europe was decided, that as hitherto many have had a not uncommendable desire to visit the field of Waterloo, now made insignificant by the side of the battlegrounds of 1914, 1915 and 1916. They will wish to see for themselves whether the great struggle has left Europe as exhausted and as crippled as they had been led to believe.

This great exodus will bring a heavy contribution to Europe to help the stricken nations to recover and it will take enormous sums of money out of this country. Although it may be maintained Europe will have nothing to sell the visitors, Americans may be depended upon to give away of their money, and to aid them, it is already hinted the Europeans are preparing to fence off in some manner and that an admission charge be made to all visitors. It has also been suggested that employment be given crippled veterans by making them guides for parties of Americans desirous of visiting the scenes of the great war. Americans are preparing to receive it. There is going to be a big day for this country and the older nations in more ways than one when the war is ended, but it is pleasant to consider that Europe will need the money, while the United States can very well afford to spend it.

A COUNTRY CLUB FOR FARMERS

Two enterprising young agriculturists of Wisconsin have established a country club in the schoolhouse of their rural community. A steam-heating plant has been installed and the building is kept warm at very little expense. Each evening from 6 to 9, young farmers gather in the building for reading and from 9 to 11 a social session and agricultural forum is conducted.

The meetings are regulated along strict parliamentary lines and the older and less progressive members of the agricultural community is markedly helpful.

The social value of a club of this sort can scarcely be over-estimated. All get to know and trust their neighbors better. The young people are brought together two or three evenings a week perhaps, and become acquainted with the possibilities of farm life and few are ever guilty of even a thought of leaving for the city.

In progressive communities in other parts of the country golf clubs have been formed and the tendency of the new generation and the older stock of farmers to get together on a basis of friendship and co-operation will make for a much happier condition in American rural communities.

April Shows Circulation of Books at Library Very Good

daily except Sundays when the reading room is open from 2 to 6 p. m. The children's room is open every afternoon from 3:30 to 5:30 o'clock, and every Saturday afternoon from 1:30 to 5:30 o'clock. The circulation statistics for April give us cause for cheerfulness again. During the month, 1,479 children's books and 3,252 for adults were loaned, a total of 4,731, which number is 815 more than were issued in April of last year. The library was open twenty-five days for the circulation of books, and the daily average was 182. There were 87 new borrowers added to the register during the month. The following new novels have been placed in the rental collection: Allen Heart of the Red Hills, Anderson Mrs. Balfame, Albertson Colonel Greatheart, Bailey Coast of Adventure, Bindloss Black Eagle Mystery, Bonner Phantom Herd, Bower Instead of the Thorn, Burnham Hope of the House, Castle Splinter, Cleghorn Kidnocation, Comstock Golden Woman, Cullum Clipped Wings, Cullum Hues Man's Heart, Ingram Side of the Angels, King Those About Trench, Lewis Samarian Mary, Locke Little Lady in the big House, London Held to Answer, MacFarlane Shepherd of the North, Maher Mildev Manse, Maniates Her Husband's Purse, Martin Hearts Steadfast, Moffat Amiable Charlatan, Oppenheim Mr. Marx's Secret, Oppenheim Broken Shackles, Oxenham Long Road Home, Paine Just David, Porter Fifth Wheel, Prouty Boy With Wings, Ruck Belly, Sinclair Emmeline, Singmaster Nan of Music Mountain, Spearman Mary Rose of Millin, Sterrett Persuasive Peggy, Thompson Pearl Adventure, Webster Curved Blades, Wells Hepsey Burke, Westcott Winnie Bucklin, Librarian.

summer following. And of these two corn is preferable as it will produce a crop and at the same time put the soil in shape for as good a crop as the summer fallow. Test the corn and keep up or better yet increase the corn acreage, North Dakota Experiment Station.

Corn For 1916 In North Dakota.

The corn acreage for 1916 should be kept up and better yet be increased. As far as possible it should be planted with home grown seed. There is considerable seed corn carried over from 1914.

This will likely show a good germination. At any rate it should be tested. A good deal of seed was saved in 1915. This should also be tested. The seed corn selected in the fall of 1915 in most cases contained a good deal of moisture making it more difficult to cure than usual. Even if it germinated in the fall of 1915 it is not planted so as to secure seed from it. Everyone ought to secure at least a few ears of home grown seed corn from which to secure seed corn for the next year. If home grown seed corn is not to be had, secure corn from as near home as possible. But in any event keep up the corn acreage.

A Dim Boston Suspicion. Boston Transcript: Sometime we almost think that there are some things planted so as to insure that they don't entirely suit Mr. Roosevelt.

\$200. Apperson Jack Rabbit, five-passenger touring car, new tires, good running order.—Ball Auto Co.—Adv.

GOD'S SALVATION IS FOR ALL MEN Marvelous Provisions of God's Grace For the Church and the World.

Scriptural Meaning of the Word Grace. The Grace of God Bringing Salvation First Provided During This Gospel Age—Natural Israel Under Law, Not Under Grace—God's Loving Plan For Man Arranged Ages Ago, but Long Kept Hidden—Church Blessed First, Then the World.

That which is merited would be justice; and it is not justice that we are receiving from God, but favor, mercy. To the nation of Israel God offered His favor through the Law Covenant, but not upon the terms of grace. They were privileged to enter into a relationship with Him that was not given to other nations. God offered them life upon certain conditions, saying to them, "He that doeth these things [he that keepeth this Law] shall live." (Leviticus 18:5.) Their fruitless endeavor to keep the Law demonstrated what both our Lord and St. Paul point out—the impossibility of keeping the Law. (John 7:19; Romans 3:20.) The reason for their failure is that God's Law is adapted to a perfect man; and mankind are fallen, imperfect.

Man's Great Lesson. For 4,128 years after Adam's fall into sin there was no grace shown to humanity. God wished mankind to learn a great lesson as to the effects of sin. So He permitted them to take their own course, that they might see that waywardness and sin ultimately result in depravity of mind, body and morals. Had He not provided a recovery, all would have slipped down the broad road to death—not eternal torment; for God never provided torture for anybody. During the Dark Ages people got the idea that God had purposed a devilish thing—that the majority of mankind would spend eternity in torment. But the Bible teaches most positively that "the wages of sin is death"; that "the soul that sinneth it shall die"; that the broad road leads to destruction.—Romans 6:23; Ezekiel 18:4, 20; etc.

The Power and the Wisdom of God are manifested in the works of creation; His Justice has been manifested ever since man's fall. But the Love of God, the Grace of God, was not manifested until our Lord Jesus came; and it is not yet manifested to the world. Only a comparatively small number have any clear perception of the grace of God in Christ.

Gradual Revelation of Truth.

When Jesus came to earth to become the Messiah and to die for mankind, even His chosen Twelve were slow to grasp the real import of His mission. It was not until after Pentecost that they saw that He could not set up His Kingdom to bless the world until He had become the Redeemer by dying for mankind; and that they themselves could not reign with Him until they had suffered and died with Him. They saw that as only one man was sentenced to death—all the others dying in him—so the death of only one man was necessary as a corresponding price, to purchase the whole world back from death.—1 Corinthians 15:21, 22.

Such is the Story of the operation of God's grace toward man. But this grace of God has as yet appeared only to a choice few—a "little flock." There has been a Grace Fund provided in the death of Christ, sufficient for the sins of all mankind. But God has His own arrangement as to how the merit of Jesus' death is to be applied. Thus far that death has only opened up the "narrow way" for the Church, and provided for their cleansing. (Matthew 7:13, 14.) All the grace of God now manifested is in this "narrow way." Of course, the world are recipients of His unmerited favor in the sense that He causes the sun to shine upon the evil and the good, etc. He treats the whole world graciously and leniently. But He receives none into His favor except those who have entered the "narrow way."

But the grace of God only begins with the Church. Just as soon as the Church are glorified with their Head, Christ Jesus, the "narrow way" will be out of commission at once; and another way will be opened up—the Highway of Holiness. (Isaiah 35:5-10.) This great Highway will lead up to perfection of human nature; for the blessing to the world will not be a change of nature, as with the Church, but the attainment of perfect human life and an Edenic earth. The redeemed of the earth shall walk upon this great, grand Way, which will lead to everlasting life upon the earthly plane. But only the obedient shall walk up this Highway. The persistent wicked and wilful shall be destroyed.

GET IN TUNE WITH SPRING.

Spring is a season of bounding life and renewed activity. If man or woman lacks ambition and energy, there is something wrong. If you feel heavy, dull, languid and listless, it is more likely that your kidneys are not throwing out the waste matter from your system as they should. Foley's Kidney Pills act directly and quickly. They help the kidneys do their work and cast out the poisons that cause rheumatism, aches, pains, stiffness and soreness. Relieves bladder weakness, too. Fout & Porterfield.—Adv.

Hotel Radisson, Minneapolis, gives you more for the price you pay than any other hotel in the twin cities.—adv.
