

HARRISON'S PLEA, NOT GUILTY. Denies Embezzlement. Reserving Right to Demur to Indictment. Sydney R. Harrison, former manager of the brokerage firm of Carpenter & Co., pleaded not guilty today when arraigned before Justice Gould in Criminal Court No. 1. He is charged with embezzling \$24,000 of the firm's money last December.

Through Attorney Raymond R. Dickie, Harrison secured permission of the court to withdraw his plea and file a demurrer to the indictment within ten days. He was released on the same bond.

Harrison left the city last December, but was apprehended last week in Virginia. The indictment was returned February 25.

KNOX IS AGAINST TOLLS REPEALER. Former Secretary of State Declares Exemption Is Not Violation of Treaty. BRINGS UP QUESTION OF CANAL DURING WAR. Says U. S. Which Is Bearing Burden of Construction and Protection, Is Alone Entitled to Benefits.

BRINGS UP QUESTION OF CANAL DURING WAR. Says U. S. Which Is Bearing Burden of Construction and Protection, Is Alone Entitled to Benefits.

A statement against the passage of the Panama canal tolls repeal bill was issued last night by Pullender C. Knox, Secretary of State in President Taft's cabinet, who is in Washington.

Mr. Knox asserted that in any discussion of the President's statement that the tolls act violates the treaty or of Sir Edward Grey's more specific claim that the benefits of the canal in respect to the canal is limited by the Hay-Pauncefote treaty, it is important to carry in mind that such limitation must either be found in the words of the treaty or arise by necessary and irresistible implication from the facts defining the relation of the parties to the treaty and to its subject.

Pointing out that the United States is building the Panama canal at an expense of \$400,000,000, Mr. Knox declared that in his preliminary argument, he would show that the United States alone carries the burden.

"We alone are expending the untold millions necessary to fortify and protect the canal so that some belated power may not secure the resulting advantage," he said. "We alone are bearing the risk of losing all this investment as the result of some natural catastrophe, such as an earthquake, against which no hazard is insured."

Restrictions in Use of Canal. "The canal shall be free and open to the vessels of commerce and of war of all nations observing these rules," is the language of the grant, he continued. "The rules which relate to war, he pointed out, that they did not apply to the United States."

"Has the United States, Mr. Knox inquired, 'bound itself not to use the canal if it should exercise a right of war or act of hostility within it?' It should be noted that the canal is not a mere waterway, but a highway, and that it should remain within the waterway, but not be open to the world."

Right to Promote Commerce. "Now if I might to protect the canal and the right to protect ourselves by exercising privileges in and about the canal, denied to other nations by our rules, is an incident to our sovereignty and thus takes the tolls out of the meaning of the general words 'all nations'."
