MORE ABOUT RUSSELLISM.

In a recent issue of the Log Cabin Democrat it was pointed out that the International Bible Students' Association, which is obtaining so much notoriety through the promulgation of the "no-hell" doctrine, is a subsidiary organization of the "Pastor Russell" syndicate of Brooklyn. A clipping republished in the Baptist Advance of this week gives further light on the tenets of Pastor Russell and will doubtless be read with interest:

"The Millennial Dawnists recently

held a convention at Pertile Springs, Mo. For eighty days they discussed topics of interest to them. Doctor Moore, pastor of the Christian church in Warrensburg, attended some of the meetings. In the Christian Evangelist he sets forth some things which he heard. He thinks Pastor Russell is getting ready to proclaim himself as the Christ, and that the proclamation will be made in 1914.

"For the benefit of our readers we present here Doctor Moore's summing up of some of the teachings of Pastor Russell and his followers. Among Mr. Russell's tenets, I mention these:

"1. Christ before coming into the world was not divine."

"2. When on earth he was still not divine; a perfect man, but only a man.

"3. His atonement was that of a mere man.

"4. Christ's body was not raised from the dead. The soul of Jesus died and the soul of Jesus was raised.

"5. Christ's second advent occurred in 1874.

"6. The saints were raised up and the professing Christian church was rejected in 1878.

"7. Christ will take his throne on earth, and the Millennium begin in October, 1914.

"8. The saints, the true Israel, the elect (Russellites) will sit on the throne with him.

"9. The Gentiles (all but the Russellites) will be destroyed, but will be raised up, and given a second chance, under more favorable conditions. Using this second chance, they will be saved, but can never occupy the exalted position of the true Israel (Russellites). Those not using this second chance, but remaining impenitent, will be destroyed (annihilated).

"10. It is folly to try to save the world in this age. That is not God's plan, and it cannot be done. All evangelistic and missionary efforts are a waste of time and money.

"11. All that can be accomplished during this age is to gather the elect from the various churches. These will be comparatively few, for did not Christ say, 'Fear not, little flock; for it is your Father's good pleasure to give you the kingdom?'"

"So-called 'Bible classes' are being organized in every community, where a few of the faithful can be gotten together. But the Bible can only be understood by means of Mr. Russell's book, 'The Divine Plan of the Ages,' and so colporteurs are going through the country selling this and other of Mr. Russell's books, and giving away tracts.

"One day the question was asked Mr. Russell: 'Do you think it best that you should be elected pastor of the various churches indefinitely?' His answer was: 'If you want to give

me a complimentary vote, it is all right, but I am the pastor of all the classes, and for all time.'

"One day he made a call for mothers to bring their children to him that he might put his hands on their heads and bless them, as Christ did. Fifty were brought.

"Many of the rank and file, I am told, believe that Pastor Russell is Christ incarnate since 1874. I regard Russellism as one of the most dangerous heresies before the public today."

BRYAN PRAISES M'COMBS.

In an editorial in the Commoner of this week, William J. Bryan says of the Arkansan who has been selected to lead the Democracy to victory this year:

"William F. McCombs is a strong man and he will make an excellent chairman of the Democratic national committee. The selection of Joseph E. Danvies of Wisconsin as secretary was also a wise one. These two gentlemen will bring new life and courage into Democratic campaign work. They may be depended upon not to make any alliances during the campaign that would embarrass Governor Wilson after he has assumed the duties of his office.

"The duties of the officers of the national committee are of the highest importance and genuine ability on the part of these officials is essential to the faithful discharge of those duties. The Democratic party is entitled to congratulations upon the high character of its new chairman and secretary."

Protesting against alleged extortionate rates charged for water, a correspondent in the Russellville Courier-Democrat writes eloquently of what "our forefathers did at Lexington, Concord and Bunker Hill." But according to the best authorities, our forefathers of those days only used water for rain.

Less than \$5 for each person between the ages of 6 and 21 was expended for public school education in Faulkner county during the past year. School tax looks high when collection times come 'round, but figured as tuition it looks cheap.

MT. OLIVE.

Most of the farmers in this part are about done work in the crop.

The rains and hot sunshine of the last two weeks has made wonderful improvement on the cotton crop.
