Official Advertising Medium of the State of Nevada and for the County of Ormsby, Nevada

The Carson City Daily Appeal is the real live advertising medium of this section as is evidenced by its carrying a larger amount of advertising than any paper in the city.

FRIDAY EVENING

OCTOBER 16, 1914

NEWLANDS AND IRRIGATION

The Republican candidate for the United States senate, in his speeches throughout the state, has attempted to minimize Senator Newlands' efforts in the fight for irrigation legislation, and claims that most of the credit was due to President Roosevelt for the enactment of the reclamation law. In this connection it might be interesting for the people of Nevada to know what President Roosevelt himself has said about Senator Newlands' efforts in this regard. In an article on Irrigation sent out by the Outlook company early in this year, and published generally throughout the country, President Roosevelt said:

"Senator Francis G. Newlands of Nevada fought hard for the cause of reclamation in congress. He attempted to get his state to act, but when that proved hopeless, to get the nation to act. By far the most effective of these senators in drafting and pushing the bill, which became known by his name, was Newlands."

MORE OF "ME AND GOTT"

Pastor Russell, one of the most famous divines of New York, whose sermons and word are taken as creed in half of the homes of the east, is out in terrible invective against the war now progressing in Europe and against the rulers who brought it about. During the course of a sermon preached last Sunday in his New York church he produced a report of a proclamation which he stated was read to the troops of Kaiser Wilhelm in Poland, wherein the kaiser proclaimed he was the representative of the Jehovah. Prefacing the reading of the proclamation, Pastor Russell said:

"But notwithstanding this knowledge, the Divine character is still blasphemed. The kings of the earth, who told during the 'dark ages' that they were the sword of the Lord and servants of the church, have not been un deceived. Hence the czar of Russia, the head of the Greek church, believes he is working out a divine destiny; the British, under King George, are equally convinced that are working out a great destiny as God's kingdom. The German kaiser is similarly deceived into thinking that he is the sword of the Almighty. Mark his latest reported proclamation to his army in Poland which reads:

"Remember you (my army) are God's elect. God's spirit has descended on me because I am emperor of Germany. I am Jehovah's sword. His representative, the instrument of the Most High. Woe and death be to those who resist my will and to all who do not believe my mission and to cowards in my army. The enemies of the German people shall perish. God demands their destruction. He it is who through me commands you to fulfill His will."

A BOARD TO BE PROUD OF

In the "back haul" case recently heard at Chicago before Examiner Thurtell of the Interstate Commerce commission the Nevada Railroad commission took the lead above the commissions of all other states that were represented. California, Oregon, Arizona, New Mexico and other western states in addition to Nevada were represented, but the chief examinations and arguments seemed to devolve on the Nevada commission. From the reports it would appear that Commissioners Shaughnessy and Simmons and Secretary Walker were the main witnesses in the presentation of the case, and when it came to argument that was left to Commissioner Bartine and when that was concluded the commissioners of the other states declared they could add nothing to what Mr. Bartine had said.

comprise its board of railroad commissioners and should be proud of them.

The mask of pretence was torn from the face of the Republican party last week when Floor Leader Mann came out flat-footed against independence for the Philippines today, tomorrow or ever. Heretofore the Republicans have pretended to favor Filipino independence at some dim and misty date in the far future. That such talk was merely pretence is confessed in the present bald and unblushingly stand for eternal imperialism. Fortunately for human liberty, the party of imperialism is no longer in position to undermine the foundation stones of popular government.

The Bible is not "losing ground." On the other hand its circulation is steadily rising. Since 1904 the British Bible society has published 240,000,000 copies of the Bible, and the American Bible society, since 1816, has published 100,000,000 copies. The total publication for the past century equals 500,000,000 volumes.

When one submarine can sink three 12,000-ton ships in twenty minutes, the forethought of the Germans in keeping their dreadnoughts in fortified harbors becomes apparent. If big navies cannot go to sea we shall not need them, for they are altogether too expensive to maintain as mere ornaments.

Any attempt by an outsider at estimating the wealth of the Rothschilds must be in the nature of a guess, but there are excellent reasons for concluding that the family is worth at least \$1,400,000,000.

In the entire United States there are 20,962,000 horses, and their value is \$2,291,638,000, \$109.32 each. Thus it will be seen that in spite of the auto the horse is still very much in evidence.

Round plump figures will be the vogue for women this winter. Those who haven't them can "build up."

A kiss in the morning and a kiss at night prevents many a fight in the middle of the day.

A collar spent with a home merchant is worth two in a mail order man's pocket.

When there is nothing to say, what's the use of saying it?

Wise men think. Fools talk.
