**FORCED THE YOUNG MAN**

Adams County Girl Wouldn't Stand for Any Backwardness.

Drew Bothwell brought a good story of an up-to-date romance home with him from New Meadows when he returned Tuesday. It was the story of a young man who didn't want to commit marriage and a young woman who did.

According to the story the couple lived at McCall and the young lady finally succeeded in talking her gentleman friend into the notion of marriage. She hired a rig and in it they drove to New Meadows, arriving there in the evening. When she looked for him early the next morning she discovered the bird had flown. She hired another rig and started back to McCall. After going a few miles she was told that the young man had not been seen any where in that direction, so she returned to New Meadows and telephoned to Riggins and here she instructed the authorities to tell this young man when he arrived on the Salmon river stage that she was on her way to that place with a gun and desired him to be there when she arrived.

The message was delivered and the young lady hired an auto and went to Riggins. There she secured the man of her choice and returned with him to New Meadows.

The next morning they took the train to Council and whether the marriage license was secured had not been learned when Bothwell was cut off from further communication with them.

From the sample of determination displayed by the young lady there is little doubt that they secured the permit, were married and will live long and happily together ever after.—Weiser Signal.

**Card of Thanks.**  
Mrs. Cartwright and family desires to express to the many friends their heartfelt thanks and appreciation for the many acts of kindness and sympathy shown them during their late bereavement.

**Pastor Russell's Theory? Who Knows?**  
Editor Index: I cannot pass by your query, Who knows but what there is no place of eternal torment? You credit the theory to Pastor Russell,

but kindly allow me to say, for the benefit of the readers of The Index, that while Pastor Russell is placing special emphasis upon that fact, he does not and never has claimed it as his theory, but that it is the Word of God. God's warning to Adam for disobedience was "That he should surely die—Gen. 2:17," or "Dying thou shalt die." (Margin) That the penalty is still in process of execution is very evident by the frequent funerals. "The soul that sinneth it shall die, Ezek. 18:4." "The dead know not any thing—for there is no work, nor knowledge, nor device, nor wisdom in the grave whither thou goest, Eccl. 9:5, 10." "The wages of sin is death, Rom. 6:23." The above is sufficient evidence to any fair and unbiased mind, but there are many other texts supporting the same thought. Reason teaches us what we would not do for our own children (unless we be brutes), a just and loving God (Who is a thousand times more just than we) would not do for man merely because he is under condemnation as a result of the first man's disobedience, or because of the blindness (still permitted of God) by the Adversary. "As by one sin man entered the world and Death by sin, so death passed upon all men, Rom. 5:12." "The wages of sin is death, but the gift of God is eternal life through Jesus Christ our Lord, Rom. 6:23." "Who gave himself a ransom for all, to be testified (to all) in due time, 2 Tim. 2:6."

**Hoppers Blocked Train.**  
Dodge City, July 30.—"Train No. 564 delayed forty minutes; stalled by grasshoppers." That was the report received at the Rock Island depot yesterday. The train was coming out of Ford when it struck a deep cut which always causes a snow blockade when there is a snow storm. The wind was blowing the dead hoppers over the rails and as the engine wheels crushed them the rails became so slippery that the wheels spun round and the train stopped. Engineer "Billy" Moran bucked the slippery rails three times in an attempt to get through the cut, but the attempts were ineffectual. The train crew turned out with shovels and scooped the hoppers off the track and covered the rails with sand before the train could proceed.
