### CHILDREN'S DAY AT MERRY-GO-ROUND

Friday is to be Children's Day at the merry-go-round on Jackson and Jefferson streets, and provisions have been made by a friend of the youngsters in general for 100 free tickets to be distributed on that afternoon. The free tickets will be a marked ticket and each purchaser stands a chance of securing a free ticket, each marked ticket calling for another and entirely free ticket.

The merry-go-round has been patronized well, and there are few youngsters in the city who have not had at least one ride, but one ride only starts the craze and the next week will see the young enthusiasts riding as often as the wherewithal is provided. The rain of the past few days has interfered to considerable extent with the patronage.

Two women of the Play Grounds Association and several boy scouts will be on the grounds to aid the children in mounting and dismounting the horses.

### CIGAR STORE AND CONFECTIONERY

Birch Butcher and Lamar Satterfield, two prominent young men of the city, will shortly open a cigar and confectionery stand in the room in the Watson building to be vacated by the gas office. While no formal announcement of the new firm has been made, it is generally known among their friends that the venture will be launched as soon as the gas office vacates for their new quarters in the old post office building.

### PASTOR RUSSELL'S TEACHINGS EXAMINED

The closing feature of the photo-drama of Creation was given here yesterday, when the general secretary of the International Bible Students' Association addressed a large gathering on the subject, "Pastor Russell's Teachings Examined."

The speaker said that "Pastor Russell's Movies," as they are popularly called, are arousing much interest in Bible study everywhere they go. Many who have seen them here during the past few weeks are studying their Bibles with renewed interest. The speaker referred to Pastor Russell's extensive tours and free Bible lectures, to his sermons, which reach twenty million people each week through over two thousand newspapers, and to his famous Studies in the Scriptures, now translated into nineteen languages, which he has given by the millions to the public at less than cost. "The Photo-Drama of Creation, however, is undoubtedly Pastor Russell's greatest and most philanthropic achievement on behalf of public instruction in the Bible."

In treating on Pastor Russell's teachings, the lecturer considered what he deemed the seven cardinal points:

First, Pastor Russell's conception of God. While many were said to be drifting into the worship of a "nature god" or some abstract principle such as "the all-good," Pastor Russell was said to earnestly contend for the God of the Bible, the personal God, who created all things, who loves His creatures and plans for their highest welfare.

Pastor Russell's views concerning the Bible were next considered. He was said to be most positive in his convictions concerning the inspiration of the Scriptures, thus bringing upon himself the hatred and persecution of many opposing ministers and higher critics. "Noah and the Flood," continued the speaker, "is considered by many to be a myth, while the account of Jonah and the Whale is generally conceded to be the biggest fish story ever told. Pastor Russell, however, points to the Lord's own words regarding Noah and Jonah, as proof that those who deny the veracity of the original accounts are in fact denying the Lord's own statement of the same and repudiating Him as a false teacher. It is for the public to decide whether or not Pastor Russell takes the correct view."

Concerning man Pastor Russell's views were said to differ from those of the evolutionists in that he still holds to the Biblical statement that man was created in God's image instead of being evolved from a monkey prototype. His fall from perfection brought death from which his only hope of deliverance lies in a resurrection.

### Want Curve Eliminated

PATRONS OF NEW POSTOFFICE ARE INCONVENIENCED BY WALK.

If the post office authorities at Washington agree to the plan which is maturing at the present time, the sharp curve in the concrete walk which leads to the new post office building from the corner of Monroe and Meredith streets, may be eliminated.

Since the occupation of the new building many complaints have been heard from patrons of the office concerning the inconvenience of this walk. Persons going to the post office by this entrance and the location of the building causes this entrance to be used more than the main one, must of necessity turn this curve at almost a right angle, when a little change in the construction of the walk would eliminate all the trouble.

The matter has been taken up by the city commissioners and City Consulting Engineer W. S. Mayers has prepared a sketch of the walk showing how the trouble can be remedied by straightening to a great extent the degree of the curve without destroying the architectural beauty of the premises. This sketch will be filed with Mr. Fleming, the postmaster, who will forward it to the proper authorities in Washington. It is thought that they will see the justice of the claim and enter the necessary order to have the matter adjusted to the best advantage.

### ANOTHER ARREST.

BLUEFIELD, W. Va., July 15.—A negro named Sam Dodson was arrested here late today charged with retailing whiskey in violation of the prohibition law of the state.

The city of Bluefield, the state of West Virginia and the United States government will all prosecute him. This is the second arrest since Sunday and officers are hot on the trail of other bootleggers.

### CHILD VERY ILL.

The infant daughter of Mr. and Mrs. Dallas Shaw, residing in the First ward, has been seriously ill since noon yesterday. It is thought that she swallowed some of the broken glass of a perfume bottle which she broke while playing with it. The child is reported as better today and will probably recover without any serious effects.

### FACT BINDS CHILE AND UNITED STATES.

WASHINGTON, D. C., July 15.—Minister Suarez of Chile and Secretary Bryan today agreed upon the terms of a peace commission treaty which will bind Chile and the United States to submit to arbitration all differences which cannot be settled by diplomacy.

The new treaty, which later will be signed simultaneously with similar pacts between the United States and Argentina and Brazil, will provide that questions at issue shall be submitted to an international commission of five members for investigation for a period of at least one year, during which time hostilities shall not be entered into.

Mr. and Mrs. D. J. Currey and daughter, Miss Neva, went to Webster Springs yesterday to spend several days.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
