

Pastor Russell, Who Comes Tomorrow, and His Special Train

donors will be greatly benefited by his going.

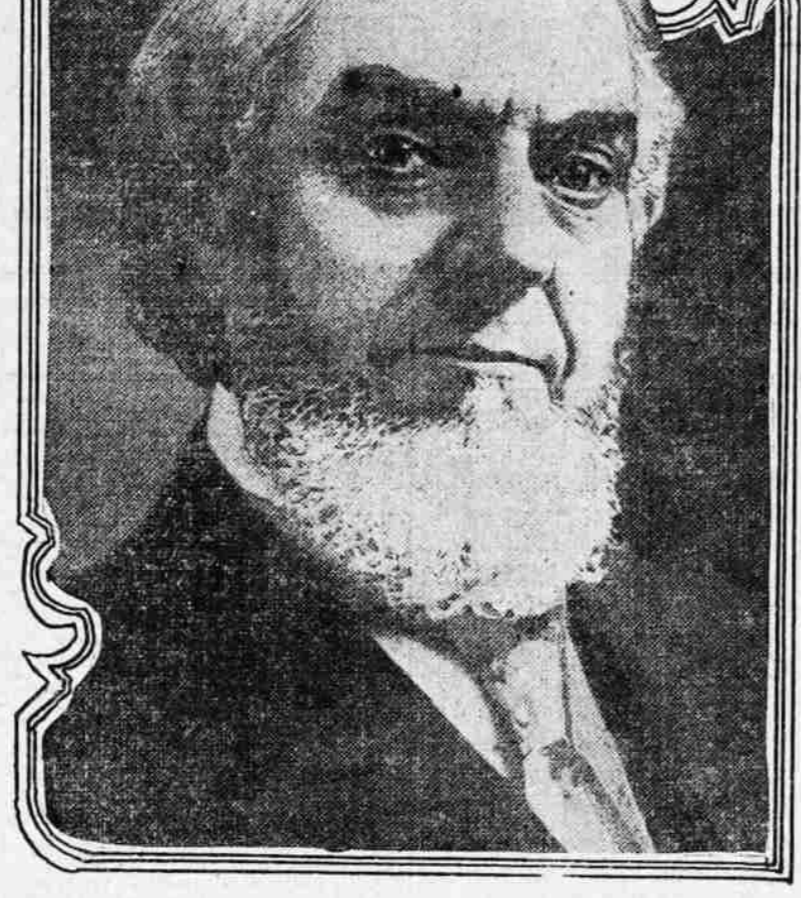

Pastor Russell has not given up the Brooklyn tabernacle pastorate as a result of the London call, it being understood that he is to serve abroad two months in the spring and two months in the fall. The Graphic recently contained the following:

Brief Biography of Pastor Russell.

The biography of this most interesting character follows: In brief, at the age of 15, an enthusiastic Sunday school worker; at 17, a skeptic made so by the arguments of an infidel acquaintance; at 20, an earnest Bible student, which led to restoration to full confidence in the scriptures as the inspired word of God; at 25, a public speaker on Bible doctrines; at 28, the editor of a religious journal and pastor of a congregation in Pennsylvania; at 33, the author of a book which has reached the 3,000,000 mark; at 35, prominent as a writer on Jewish topics after having thoroughly studied the special divine promises to Israel as respects their restoration as a people in Palestine; at 36, president of the Tower Bible and Tract society; at 37, the writer of five additional religious books; at 38, research pastor of the Brooklyn tabernacle and president of the New York People's Pulpit association. In this, his sixtieth year, he finds himself charged with the duties incumbent upon the holder of the foregoing position, and also the pastor of the London tabernacle, which henceforth is to have a liberal share of his time. During the past year Pastor Russell has delivered addresses to many Jewish audiences on the prospects of their race in Palestine.

The Brooklyn Tabernacle.

Perhaps the most remarkable congregation on earth is that of Brooklyn tabernacle, over twenty nationalities being represented on its board of elders and deacons, and the same rule of "seats free, no collections" is enforced there as elsewhere. Pastor Russell, when in America, usually speaks to this congregation on the first Sunday of each month, it being understood that he is to serve in outside meetings on other Sundays.

he is a most influential moulder of public opinion, is conceded by thousands. He came into prominence in New England in 1877, on account of his distinct views expressed on the punishment for sin. Since then his field of activity has continually expanded.

completed on the new Burley-Oakley branch, and that while the few finishing touches were being put on before the line was turned over to the operating department and every other day train service is maintained. The Paris branch is also practically completed and a freight service is already open to the public. On the Burley-Kelton and Richmond-Taft branches work is being pushed with all possible speed, the contractors having employed all the workmen that can be used to good advantage.

CRIMINAL DIVISION OF CITY COURT REPORTS

Of a total of 383 cases which came under the jurisdiction of the criminal division of the city court during the month of May 295 defendants were discharged and 88 cases dismissed without trial, according to the monthly report, which was filed with City Recorder E. S. Rives Monday morning. The total number of cases filed from the police court amounted to \$223.

DOCTORS FAILED TO HELP HER

Cured by Lydia E. Pinkham's Vegetable Compound

Pound, Wis.—"I am glad to announce that I have been cured of dyspepsia and female troubles by your medicine. I had been troubled with both for fourteen years and consulted different doctors, but failed to get any relief. After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I can say I am a well woman. For the good your medicine has done me. You may publish this if you wish."

DR. ROBINSON'S CASE ON CALENDAR TODAY

The trial in the case of the board of medical examiners against Dr. J. H. Robinson, charged with violating the ethics of the medical profession, will be opened today in Judge M. L. Ritchie's division of the Third district court. The action was begun to prevent Dr. Robinson from practicing medicine and surgery in this state. Dr. Robinson is facing a charge of having performed a criminal operation on a young woman of the city.

Stop Experimenting! Take a 'Cascaret'

Nearly all our ills come through inactive liver and bowels. Millions of folks keep feeling good with Cascarets.

One must keep the bowels clean. Do it just the same as you keep your skin clean. Not by severe applications, applied at rare intervals. But by gentle and regular efforts. It pays immensely. Many people dread physic. They think of castor oil, of salts, and cathartics. They shrink from the after-effects—gripping and weakness. So they postpone the dose until they are constive or bilious. Then they do the cleaning in a heroic way. That is all wrong. Cascarets are a gentle laxative. They are just as effective as anything else, and more natural. And they are pleasant—a candy. They are made to carry with you. Take one just as soon as you need it. You'll know. The result is your bowels are always active. You always feel at your best. Try a 10 cent box of Cascarets. You'll never again go without them.

While your coal dealers are advising the storing of coal, you ought to be giving a little thought to your deliveries—in other words, a little thought to PACKARD TRUCKS WITH DUMP BODIES.

Just think what you could save, for instance, with a truck that delivers twenty to twenty-four tons of coal a day, made for side dumping of the entire load as one unit of three tons or as three units of one ton each.

We can sell you another, equipped with side or end dump. Then, too, the rear gate is detachable so that the truck can be used for hauling lumber or freight.

Of course they're big money savers.

STRONG EVIDENCE OF BETTER TIMES

Business Done by New Trains on Rio Grande and Western Pacific Is Conclusive.

While the press has heretofore carried the formal announcement of the increased passenger train service on the Denver & Rio Grande and Western Pacific railroads, two extra trains being supplied daily, trains that make close connections in Salt Lake both east and westbound, the significance of the improved service has perhaps not been fully appreciated by the public. Colonel I. Benton, general agent of the passenger departments of both the roads for the Salt Lake headquarters, said yesterday.

PLANNING INNOVATION.

Harriman Lines Inaugurate New Scheme of Sightseeing in the East. S. A. Hutchinson, manager of the tour department of the Harriman lines and the Chicago & Northwestern, is in the city making arrangements for an innovation in excursion travel from the west to the east—a personally conducted, all-expense tour of fifteen days' duration, which will afford the tourists ample opportunity to visit all points of national interest between Chicago and New York City. The party will be limited to 100 members and will leave Salt Lake Wednesday, August 16, returning Thursday, August 31.

Railroad Notes.

D. R. Gray, district freight and passenger agent of Harriman lines, is back from a business trip to Idaho. General Superintendent E. C. Manson of the Short Line left last night for Chicago. He expects to be absent for about a week. F. H. Plested, assistant general freight agent of the Short Line, has gone to Denver on a brief official trip. Charles A. Henry, ticket agent of the Union depot at Ogden, was in the city yesterday conferring with General Passenger Agent H. E. Burley of the Short Line.

WORK ON SHORT LINE.

Chief Engineer Carl E. Stradley of the Oregon Short Line is back from an Idaho inspection tour, highly pleased with the excellent progress made in the extension construction work on the various branches of his road in the Gem state. Mr. Stradley said that surfacing had been
