Book, Sold by J. H. Berg, now in jail, Considered Violating Espionage Act.

"Nowhere in the New Testament is patriotism a narrow-minded hatred of other people..."

These sentences occur in a book, entitled, "The Finished Mystery; a helping hand for bible students..."

From the imprint it is learned that the book is published by the International Bible Students' association at Brookline, Massachusetts...

Against Militarism. The "Finished Mystery" purports to be a study of the scriptures and "Pastor Russell of Brooklyn, N. Y. widely known because of his varied experiences in different parts of the country..."

On page 248 appears the following statement: "The most virulent and devastating disease of humanity now raging on earth is militarism..."

Germany a Scape-goat. A little further on in the book, the writer states that the author is not being impartial as he denounces war madness appearing in Germany as well as in allied countries...

Attacks the Clergy. On page 41 of the book appears the following sentence: "The clergy for whom many would even have died in the past, but who have preached the people into this war and into the greater part of the book is a rather incoherent miscellany of scripture passages and more or less fantastic comments and in some places it delves into the field of prophecy and even metaphysics with an intellectual strength and spiritual conviction which is exceedingly ineffectual..."

TURN HAIR DARK WITH SAGE TEA. If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

Nowadays, though, we don't have the trouble-free hair of our grandmothers and the mussy mixing at home. All drug stores sell the ready-to-use product improved by the addition of other ingredients called "Wyneth's Sage and Sulphur Compound..."

33,000 SHOTS A MINUTE—THAT'S WHAT INVENTORS CLAIM FOR THIS NEW "CREAM SEPARATOR" MACHINE GUN

Thirty-three thousand shots a minute! That's what the inventors claim for the newest thing in machine guns.

It looks more like a cream separator or a sausage grinder than like the popular idea of a gun. It has no barrel but the shells are hurled out by a disk which revolves at tremendous speed. This disk is enclosed in the flat circular case at the top of the machine and in the front may be seen the slot through which the bullets are fired. The new weapon is the invention of two Boston men, Levi W. Lombard and Earle Ovington. The photograph shows E. L. Jones operating the gun. It can be operated by motor gasoline, steam or hand.

Serious Disorder At Time Of Strike In Berlin, Says Report

New York, March 20.—Serious disorder attended the general strike in Berlin during the last week of January and the first few days of February, according to German newspapers of that period received here.

The strike temporarily paralyzed all war industries in Berlin and vicinity, especially the airplane plants. The Prussian Diet was also affected, as the composers and printers there also joined the strike thus interfering considerably with the proceedings owing to the delay in the printing of bills and other documents.

The strike came as a surprise to the leaders of the social democratic party, said the Internationale Korrespondenz, a socialist organ, which stated that the party leadership had not been consulted regarding the strike. Later the party leaders were requested by the strikers to assume charge of the strike, which they did in an endeavor to end the strike as soon as possible and to see to it that the interests of labor were safeguarded.
