Guarantee of Bank Deposits.
Many thinking people believe that the sub-committee on banking and currency, of which Representative Carter Glass, of Virginia, is chairman, has in mind the intention to recommend legislation for the guarantee of deposits in national banks. The trend of modern thought is in that direction. No less a leader than William Jennings Bryan has long advocated the idea. It is purely a democratic doctrine. The platform of 1908 pledged the democratic party to the idea. The omission of the plank from the Baltimore platform may have been accidental or it may have been felt by some that the establishment and success of the postal savings bank made it unnecessary at this time. Whether an effort will be made in this congress to inaugurate this reform is problematical and perhaps at this particular time, not of vital importance. Of course when the proposition comes up for consideration it will be opposed by Wall Street and the entire banking system of the country. The only argument against the plan is that well managed banks will have to pay for losses caused by poorly managed institutions and acts of dishonest officials. That is just it. The currency and banking laws should be such that it will be impossible for poorly managed banks to continue in business or for dishonest officials to remain in positions of trust. Zealous opponents of this reform have exclaimed that it is absurd to make banks guarantee deposits as it would be to compel insurance companies to pay their losses. In answer to that we might observe that there is no good reason why insurance companies should not be forced by law to guarantee payment of all losses. It is on that ground they obtain policies from a trusting public. What action, if any, the next congress will take regarding the guarantee of bank deposits is merely conjectural. One thing, however, is well known. No other nation of the first class has such an imperfect and unstable system of banking and currency as the United States and it is greatly to be desired that the Glass sub-committee will propose an adequate remedy.

String to Carnegie's Gifts.
A good many thoughtful people believe there is always a string to the so-called benefactions of Andrew Carnegie, who piled up a stupendous fortune owing to the government subsidy on iron and steel. In fact it has become generally believed that his gifts of millions have done more harm than good to the cause of education and enlightenment. This is brought about by his desire to fix a certain dead level for institutions of learning and of his discouraging individuality.

Today's Beauty Recipes
By Mma. D'Mille.
"Today, with gall as a tissue builder, scrawny of shoulder and hollowness of chest can be restored to symmetry and grace. To make a Vaseline treatment for home use, simply stir an ounce of gall into a syrup made by dissolving 1 1/2 cups of sugar into a pint of water. The dose is two teaspoonfuls before meals.
At this season of the year the complexion requires better protection than is afforded by powder. Dissolve an original package of maystene in a half pint of witch hazel and you have a complexion beautifier that makes the skin soft, lovely, smooth and shiny. Gently massage face, neck and arms with this in the morning and your complexion will need no further attention all day.
Of the many shampoos on the market, I recommend Mother's Shampoo on account of its searching though bland action on the scalp. It will remove the parasites that cause dandruff and falling hair, the forerunners of baldness. Mother's Shampoo is sold by druggists. It really makes the hair fluffy and fine.
"Embarrassing wild hairs and fuzzy growths are quickly and safely removed by one application of delatone. Make a paste by mixing powdered delatone with water; cover the hairy surface for two or three minutes; then remove, wash the skin and the hairs will be gone.
"Mother's Salve is an old-fashioned remedy for coughs, colds in head or chest, catarrh and sore throat. It can be purchased in prepared form from any druggist. It is easy to use and quick to act. The world never saw its equal as a household remedy." (Adv.)

The Laird of Skibo believes that colleges and universities should be managed like machine shops, with a certain standard of practice and efficiency to which they must conform if they get any of his money. Originality is at a discount with Mr. Carnegie. He has given another million and a quarter dollars for this standardizing process which he wishes applied to the law schools of the country.
Of course, ill-natured people may say that it is easy to see why men like Carnegie desire to influence the law schools.
It would have been much better had the government never lent itself to the creation of such vast fortunes as that of Carnegie. The bulk of that money should be in the pockets of the people from whom it was taken.
The Klammsee Journal, one of the brightest papers in its section of the state, blazes forth with something like this:
"Klammsee may never be the capital of the United States, but she has an excellent chance of becoming the center of South Florida activities. Geographically, climatically and financially she is destined to lead."

VOX POPULI.
SAYS MR. SKINNER DOES NOT KNOW WHEREOF HE SPEAKS
Editor Pensacola Journal.
Your issue of this morning contained an article signed by W. M. Skinner, which calls for a reply, and I would greatly appreciate a small amount of your valuable space for that purpose.
For Mr. Skinner's benefit I will say that I admire his honesty of heart and sincerity of purpose for both are manifested in the article which bears his signature. His honesty is revealed in the first statement he makes—that he "knows but very little about Pastor Russell and his followers," and he might have added the doctrine they teach. His presentations of what Pastor Russell teaches are not at all correct, and in this particular he is without excuse for he has had ample opportunity to know the truth, for Pastor Russell has been here and lectured to about 1,500 people, his books can be had at about 1-cent prices of similar books sold by denominational publishing houses and already six million of them have been put into circulation. Moreover his sermons appear regularly in 1,500 newspapers, and last year thirteen million papers were distributed free, and each paper contained four of his sermons. Surely Mr. Skinner could know what Pastor Russell teaches if he wanted to. Can it be possible that Mr. Skinner is guilty of "condemning without investigating?" Or perhaps he has a zeal for God, but not according to knowledge—just such a zeal as Saul had when he put the Christians to death. A zeal for God will eventually bring the truth to any honest heart, even when it is first used without knowledge, for those who are honest at heart will remedy their own errors when they see they are out of harmony with God's Word or His purposes. In this case the application of such words as "false Christ and false prophets" without investigation is going a long way beyond what the spirit of the Lord would teach. Paul says to "prove all things, hold fast that which is good," and he commended the Bereans because they heard what he had to say and then "searched the Scriptures to see if these things were so." Perhaps Mr. Skinner would like to come on and hear what is being said, and he will be welcome to any and all the services, they are free and no collections are asked.
In conclusion I will simply say that the Bible emphatically teaches that the finally selected will be punished with everlasting punishment, a fact which no one denies. Pastor Russell simply proves that the Bible teaches this punishment is not in the hell as shown in the creeds, a place of life in torment, but in the Bible hell, which differs materially from any of the others. It is needless to enter into this subject at length, for a pamphlet entitled "What say the Scriptures about Hell" can be had free from Pastor Russell

S. J. WELCH TALKS TO THE VOTERS
To whom it may concern.
My candidacy for commissioner of public works, subject to the action of the democratic primaries, is based on the following grounds: I have been engaged in building operations for about 20 years from the time of practicing architect, having designed buildings, machinery, parks, streets and sewers.
The city's business should be run by competent men, not by good fellows, or politicians, if you want the best results possible, and allow citizens the duty falls on you to give this matter your serious consideration, does it not?
I presume that the duties of office will be divided as follows, between the three commissioners:
1st.—(A commissioner of revenue) know the city's exact monies due the city from all sources, assessments of property, keeping the archives, along modern lines for future reference; establish a system of accounting and bookkeeping that will show the exact financial standing of the city; and perform all other duties of a similar nature that may accrue.
2nd.—(A commissioner of safety) To look after the recorder's court, police, fire, weights and measures, and all legal matters pertaining to the city.
3rd.—(A commissioner of works) To look after sewers, paving, parks, building, plumbing, lights, streets, etc.
A good business man could fill the position of commissioner of revenue, a lawyer could fill the commissioner of safety, and an architect could look after the public works. If you choose these commissioners for your own individual business, I believe that you would make about the same selection, would you not?
I promise to devote my entire time to the city's business, if honored with the position.
I have been living in Pensacola about four years; and I presume that you know me, if you do not know me personally, I am the architect and superintendent on the O. L. Bass building, the German Lutheran Church, five city schools, and residences in all parts of the city.
Of course you realize that if you do not elect competent men, the men that you do elect will be compelled to employ competent men, and the hiring will be running the office, and the man that you elected will be playing second fiddle.
I believe you will agree with me that we will get better results as outlined above, than would be possible in any other manner, and if the voters think as I do, Pensacola will be placed in the forefront among the progressive cities of the United States.
S. J. WELCH.

Climate Failed; Medicine Effective
It has been absolutely shown that rest, fresh air and good food do help many persons suffering from tuberculosis. But it must be admitted that the disease is more than "arrested." Something more is needed.
Eckman's Alternative is a medicine that has conquered this disease again and again. Often these benefits have been offered without knowledge—just such a zeal as Saul had when he put the Christians to death. A zeal for God will eventually bring the truth to any honest heart, even when it is first used without knowledge, for those who are honest at heart will remedy their own errors when they see they are out of harmony with God's Word or His purposes. In this case the application of such words as "false Christ and false prophets" without investigation is going a long way beyond what the spirit of the Lord would teach. Paul says to "prove all things, hold fast that which is good," and he commended the Bereans because they heard what he had to say and then "searched the Scriptures to see if these things were so." Perhaps Mr. Skinner would like to come on and hear what is being said, and he will be welcome to any and all the services, they are free and no collections are asked.
In conclusion I will simply say that the Bible emphatically teaches that the finally selected will be punished with everlasting punishment, a fact which no one denies. Pastor Russell simply proves that the Bible teaches this punishment is not in the hell as shown in the creeds, a place of life in torment, but in the Bible hell, which differs materially from any of the others. It is needless to enter into this subject at length, for a pamphlet entitled "What say the Scriptures about Hell" can be had free from Pastor Russell

ACCLAIMED A HEROINE; NOW UNDER ARREST
New York, March 20.—Mae Benlin, 16 years old, acclaimed as a heroine after carrying two children from a burning house on March 10, is under arrest today on suspicion that she took valuables that were in a closet untouched by the flames. The girl was a nurse in the employ of George H. Murray, a broker, residing in Queens. Two Murray children were apparently rescued by the girl during the absence of Mr. and Mrs. Murray. The grateful parents told the girl her salary would be increased as soon as the family was established in a new home. Investigation to learn the origin of the fire disclosed that \$600 worth of jewelry was missing.

String to Carnegie's Gifts.
A good many thoughtful people believe there is always a string to the so-called benefactions of Andrew Carnegie, who piled up a stupendous fortune owing to the government subsidy on iron and steel. In fact it has become generally believed that his gifts of millions have done more harm than good to the cause of education and enlightenment. EDUCATIONAL CONFERENCE AT GAINESVILLE
SUPERINTENDENTS, PRINCIPALS OF HIGH SCHOOLS AND COUNTY BOARDS OF PUBLIC INSTRUCTION TO MEET MARCH 26 TO 28.
Wednesday, March 26th, to Friday, the 28th, will be memorable days in Gainesville, for on those dates the state conference of county superintendents, county boards of public instruction and principals of high schools will be held.
An elaborate program has been arranged and the present indications are that the largest aggregation of teachers to ever assemble in one body in Florida will be present.
Every preparation has been made for the entertainment of the guests by those in charge at Gainesville and the conference will no doubt be the success which is anticipated by its promoters.
The program which has been prepared by the committee is as follows:
Wednesday, March 26.
Invocation 10 a. m.
Preliminary exercises.
Subjects for discussion:
I. The County Superintendent.
His Qualifications.
(a) Scholastic—Supt. J. T. Diamond.
(b) Professional—Supt. R. E. Hall.
(c) Other Necessary Qualifications—Supt. J. H. Brinson.
(d) Toward School Officials and Patrons—Hon. L. W. Kieckhefer.
(e) In the Selection of Teachers—Supt. Dixie M. Hollins.
(f) In the School Room—Supt. S. H. Taylor.
His Authority Over Teachers—Supt. C. B. King.
(g) Should Eligibility for Office be Prescribed by Law?—Supt. W. M. Rowlett.
Best Method for Selecting County Superintendents—Prin. W. S. Coleman.
Discussion opened by Supt. W. A. Dopson.
2:30 p. m. II. High Schools—Junior and Senior.
Requirements with Respect to:
(a) Number and Preparation of Pupils—Prin. A. D. Kenn.
(b) Number and Qualification of Teachers—Prin. J. H. Workman.
(c) Number and Extent of Subjects to be Taught—Prin. F. A. Hathaway.
(d) Number and Length of Recitations—Prin. E. L. Robinson.
(e) Minimum Length of Term—Prin. B. L. Larr.
(f) Libraries and Laboratories—Prin. W. E. Knibbs.
(g) Limiting the Number of Junior and Senior High Schools—Supt. F. G. Schell.
Discussion opened by J. A. Thackston.
7:30 p. m. III. Compulsory Attendance:
(a) Is There Necessity for Such a Law?—Prin. L. H. Beeler.
(b) Needful Age and Time Limits—Supt. G. W. Tadd.
(c) How Much Time Should be Devoted Thereto?—Supt. A. A. Core.
(d) Discussion opened by Prin. G. E. MacKay.
IV. State School Fund:
(a) Its Present Amount and How Invested—Supt. J. Q. Palmer.
(b) Why Should It Not be Loaned to the Counties at the Same Rate?—Supt. D. D. Corbett.
(c) How to Proceed to Secure Needed Legislation—Supt. J. W. Hodge.
Discussion opened by Prin. Glenn Terrell.
Thursday, March 27.
9:30 a. m. Invocation.
V. Rural Schools:
(a) Consolidation—Supt. A. S. Edwards.
(b) Transportation—Supt. J. W. Sanderson.
(c) Sanitation—Supt. Virgil S. Lowe.
(d) Ventilation and Lighting—Supt. W. A. Thaxton.
(e) Equipment and Supplies—Supt. Thomas W. Price.
(f) School Grounds and Class Rooms—Supt. H. W. Lewis.
(g) Libraries—Supt. J. F. McKinnon.
(h) Classification of Pupils—Supt. R. L. Turner.
(i) The Propriety of Furnishing and the Effect of Free Text Books—Supt. F. S. Jackson.
(j) Final Examinations—Supt. Marshall Moore.
Vocational and Industrial Work—Dean J. J. Vernon.
(a) What Should be Taught and When Begun?—Supt. W. T. Kennedy.
(b) How Much Time Should be Devoted Thereto?—Supt. A. A. Core.
(c) How Adapt the Course of Study to Such Work?—Supt. C. A. Parker.
(d) Correlation with Other Work—Supt. J. W. Sherrill.
Discussion opened by Inspector Geo. M. Lynch.
11:30 a. m. VI. Special Tax Districts:
(a) Desirable Changes in the Law and in the Organization of Districts—Hon. W. D. Carn.
(b) Total Millage Possible Since the Adoption of Section 17 of Article XII, and Suggested Provisions for the Law—Supt. J. L. Kelley.
Discussion opened by Dr. W. F. Blackman.
2:30 p. m. VII. Recognition of Certification and Diplomas:
(a) Certificates from Other States—Supt. W. J. Sears.
(b) From Other States—Prin. C. M. Jones.
(c) From Schools of Florida—Supt. E. B. Massey.
Discussion opened by Prin. R. M. Evans.
3:30 p. m. VIII. Teachers' Summer Schools:
(a) Shall They be Continued and How?—Dr. A. A. Murphree.
(b) Desirable Limitations as to Number—Supt. J. D. Cottingham.
(c) Permanent Appropriations for—Supt. J. O. Bickley.

S. J. WELCH TALKS TO THE VOTERS
To whom it may concern.
My candidacy for commissioner of public works, subject to the action of the democratic primaries, is based on the following grounds: I have been engaged in building operations for about 20 years from the time of practicing architect, having designed buildings, machinery, parks, streets and sewers.
The city's business should be run by competent men, not by good fellows, or politicians, if you want the best results possible, and allow citizens the duty falls on you to give this matter your serious consideration, does it not?
I presume that the duties of office will be divided as follows, between the three commissioners:
1st.—(A commissioner of revenue) know the city's exact monies due the city from all sources, assessments of property, keeping the archives, along modern lines for future reference; establish a system of accounting and bookkeeping that will show the exact financial standing of the city; and perform all other duties of a similar nature that may accrue.
2nd.—(A commissioner of safety) To look after the recorder's court, police, fire, weights and measures, and all legal matters pertaining to the city.
3rd.—(A commissioner of works) To look after sewers, paving, parks, building, plumbing, lights, streets, etc.
A good business man could fill the position of commissioner of revenue, a lawyer could fill the commissioner of safety, and an architect could look after the public works. If you choose these commissioners for your own individual business, I believe that you would make about the same selection, would you not?
I promise to devote my entire time to the city's business, if honored with the position.
I have been living in Pensacola about four years; and I presume that you know me, if you do not know me personally, I am the architect and superintendent on the O. L. Bass building, the German Lutheran Church, five city schools, and residences in all parts of the city.
Of course you realize that if you do not elect competent men, the men that you do elect will be compelled to employ competent men, and the hiring will be running the office, and the man that you elected will be playing second fiddle.
I believe you will agree with me that we will get better results as outlined above, than would be possible in any other manner, and if the voters think as I do, Pensacola will be placed in the forefront among the progressive cities of the United States.
