RAILROAD MAKES READY FOR WINTER

New Switch Cleaners Are Delivered to Interlocking Plants

Hydro-carbon tanks and stands have been delivered to all of the important interlocking plants along the Pennsylvania Railroad. It is a chemical used to spray switches and rods during cold weather in order to keep them from freezing up with ice and snow.

This, if a success, will be a big improvement over the methods now employed in keeping the switches open during snow storms. In freezing weather it is frequently necessary to keep the section men on duty at all hours, and in most instances crude oil is poured over waste that has been packed into the switches and then lighted.

On account of the many switches connected with the interlocking plants, they are easily frozen up during the winter months and very often delay the movement of all the traffic. For this reason the section men must be kept on the job all night, but with the new method of spraying the rails, it will be much easier for all operating men.

The company is making other preparations for the coming winter months. The snow plows that were stored along the divisions during the summer months, are being put into good condition and ready for emergencies. Every precaution is being taken this year in order to prevent a tie-up similar to that which occurred on last Christmas, when trains on the divisions were delayed for two days.

NEWS OF THE AVENUE.

Final Presentation of "A Texas Steer" and Opening of "St. Elmo."

"A Texas Steer," which has enjoyed a highly successful run at the Avenue Theatre this week will be given its final presentation to-night. The Avenue Amusement Stock Company has made a big hit in this comedy, as it does in every play that it presents.

Great preparations are being made for the production of "St. Elmo" next week. This drama will be given with an attention to detail that is characteristic of such a high class company as the Avenue.

SHOPMEN WILL RECEIVE PASSES

Pennsy's List for 1911 Is to Be Largely Increased, It Is Said

With the issue of passes to the employees of the Pennsylvania Railroad for 1911 will come a number of new pasteborders. The pass list has been largely increased on account of a number of employees having reached the age limit which entitles them to annual passes.

Added to the 1911 list will be a number of shopmen and roundhouse employees, according to reports circulated yesterday. For some time shopmen and roundhouse employees who have been in the company's service over twenty years have been trying to get annual passes and it is understood they will be favored.

DOGS MAKE TROUBLE FOR THE BAGGAGEMEN

Wage-earners who are always glad when the hunting season ends are the baggagemen. Just now they are having a trying time with dogs. They are required to ask questions and figure the cost of carrying the dogs.

The first question a baggageman wants answered is the value of the dog. If the owner says more than \$25, he must take the dog to the express office. The railroads have made arrangements for the baggagemen to get "something extra" for their trouble.

For ten miles or less they collect and retain ten cents for each dog. For ten to sixty miles he annexes fifteen cents, and for all distances of sixty miles or over a rate of one-fourth of a cent a mile is charged after the fifteen cents for the first sixty miles has been collected.

RELIEF DEPARTMENT BALLOTS RECEIVED

The election ballots for the relief department of the Pennsylvania Railroad Company are now being distributed among the members, all of which must be sent to Philadelphia by Monday, November 28.
