A WOMAN'S BACK

The Advice of This Emmett Woman is of Certain Value

Many a woman's back has many aches and pains. Oft times 'tis the kidneys' fault. That's why Doan's Kidney Pills are so effective.

Many Emmett women know this. Read what one has to say about it: Mrs. J. L. Moulton, First St. and Hawthorne Ave., Emmett, says: "My back nearly killed me; it pained so badly. I had backaches for weeks at a time and I could hardly get around. In the morning I was weak and lame and felt tired and nervous. I was a wreck. The kidney secretions caused me great misery. Doan's Kidney Pills gave me relief from all these ailments and helped me in every way. Another of my family has used Doan's Kidney Pills off and on, when having trouble like mine and he has always had the very best of results." (statement given June 13th, 1910).

OVER TWO YEARS LATER, Mrs. Moulton added: "I gladly confirm the endorsement I gave Doan's Kidney Pills some time ago. They did me a world of good."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Moulton had. Foster-Milburn Co., Props., Buffalo, N. Y.

Many Complaints Heard.
This summer many persons are complaining of headaches, lame backs, rheumatism, biliousness and of being "always tired." Aches, pains and ills caused by kidneys not doing their work yield quickly to Foley Kidney Pills. They help elimination, give sound sleep and make you feel better. Haley & Miles.

None Equal to Chamberlain's.
"I have tried most all of the cough cures and find that there is none that equal Chamberlain's Cough Remedy. It has never failed to give me prompt relief," writes W. V. Harner, Montpelier, Ind. When you have a cold give this remedy a trial and see for yourself what a splendid medicine it is. Obtainable everywhere.

For any itching skin trouble, piles, eczema, salt rheum, hives, scald head, herpes, scabies, Doan's Ointment is highly recommended. 50c a box at all stores.

Why He Cut His Hair.
There is a certain surgeon in Boston who had, some months ago a very splendid crop of hair. Although the surgeon is not old, his hair is snow-white, and he is very proud of its beauty. He wore it parted in the middle and rather long, and it fluffed luxuriantly on either side of the part. The impulse toward a change in hairdressing came to the surgeon in this manner:
He had operated upon a woman and was bending over her as she began to come out of the ether. She opened her eyes for a moment, and then closed them again. Then with a long sigh and in a rupt voice she said, "What a beautiful white chrysanthemum!" The students present exploded, and now the surgeon wears his hair cut as close as a gentleman may.—Youth's Companion.

His Only Escape.
A certain French journalist was one day disagreeably intruded upon by a creditor, who announced his intention of not departing until his bill was paid. The creditor planted himself upon a chair, and the journalist beheld him, with consternation, draw a package of sandwiches from his pocket as though to fortify himself against a long stay. Several hours glided by. The journalist finished his article. The creditor showed no signs of leaving. Suddenly the journalist arose and with bits of newspaper began carefully filling all the apertures through which air could come into the room. He then made preparations for lighting a charcoal fire. Just before applying the match he wrote something on a large sheet of paper and pasted it upon the wall. The paper was worded, "Take notice that we die of our own will!"
"What are you doing?" cried the creditor uneasily.
"Well, my friend," replied the journalist tranquilly, "your society would render life perfectly intolerable, so we are going to commit suicide together."
It is needless to say the creditor left.—Lippincott's Magazine.

Both Correct.
A schoolmaster in Liverpool one day asked the dunce of the school some very simple questions in arithmetic. He was surprised to find that he got the right answers, and when he had finished he said to the boy, "Correct; sit down."
"Now," said the schoolmaster, "see if you have sense enough to ask me some questions."
The boy pondered for a moment and then said, "Please, sir, what would three yards of calico cost if cotton was tuppence a reel?"
"I think you take me for a fool," said the schoolmaster.
"Correct; sit down!" returned the boy.—Liverpool Mercury.

Did the Old Man Good.
Geo. W. Clough of Prentiss, Miss., is 75 years old and had trouble with his kidneys for many years. He writes that Foley Kidney Pills did him much good. He used many remedies, but this is the only one that ever helped him. No man, young or old, can afford to neglect symptoms of kidney trouble. Haley & Miles.

THE ONLY TRUE SOURCE OF LIFE ETERNAL

Christ's Human Life-Rights Imputed to Church, Given to World.

Divine Method of Selecting the Church. Deep Spiritual Truths a Cause of Separation—How We Eat Our Lord's Flesh—The Class That Drink His Blood—Our Lord's Life Laid Down at Calvary—The Merit of His Sacrifice to Be Given to the World Soon. Imputed to the Church Now.

PASTOR RUSSELL

Sept. 12.—Pastor Russell delivered an able address today, from the text, "Lord, to whom shall we go? Thou hast the words of eternal life."—John 6:68.

The setting of the text formed the introduction to the theme. Then the speaker explained God's method of selecting the Church of Christ, as outlined in Scripture. For nearly nineteen centuries God has been gathering a "little flock" out of all nations and denominations. With the close of this Age these faithful ones shall be made like their Lord on the spirit plane, and with Him shall be given great power for the purpose of bringing mankind back to human perfection. Not by pushing, not by thunderings or imprecations, but by the magnet of His Word, passing throughout the world. God has drawn to Himself the class He seeks. These not only make a covenant with Him, but keep it. If they have fleshly weaknesses which they cannot overcome, He makes provision for these. He is looking at the heart, the New Creature.

Eating the Flesh of the Son of Man.

The Pastor explained in detail our Lord's words, "Except ye eat the flesh of the Son of Man and drink His blood, ye have no life in you." (John 6:68.) Father Adam's life was forfeited because of his disobedience; and all his children thus lost their right to life. Our Lord gave His flesh, His human nature, for Adam and all of his family. He laid down His flesh in order that the Adamic race might have the right to earthly existence. Jesus' new life is not earthly, not fleshly; He has a spirit body now. (1 Peter 3:18.) Therefore He has His fleshly life to give to the world. Never having forfeited His human life, He still has the right to it. But now, glorified on the spirit plane, He will give the merit of His human life to Adam and his race at the end of the Gospel Age.

There is a difference between laying life down and giving it. Our Lord has undertaken to give His human nature for Adam's human nature. He laid down His life at Calvary, but did not then give it. One might lay down a parcel in a store, intending to get it later and give it to one of the clerks. So eighteen hundred years ago Jesus laid down His life. He still has the right to it, but will soon give it up forever, as the offset for Father Adam. Then Divine Justice will turn over to Adam and all His race to our Lord, who will take His great power and reign. He will have the right to bless the world for whom He laid down His life at Calvary when He gave that life to Jehovah.

At the beginning of the Messianic Age all accounts on the books of Justice against Adam and his race will be canceled, and the great work of blessing mankind will begin. During that time Jesus will give them His flesh to eat, the merits of His sacrifice, that they may take on all those perfect human qualities which He laid down. Throughout the Incoming Age mankind will eat His flesh—appropriate the human blessings which He sacrificed for them. Those who build character worthy of everlasting life will receive that life at the end of the Age. Those who fail to build character in harmony with the Divine requirements will be cut off in the Second Death—annihilation as unworthy of everlasting life.

Drinking the Blood of the Son of Man.

To the Church are now given by faith the blessings which the world will receive actually by and by. The Church accept the Divine invitation to leave the world and become New Creatures in Christ, begotten to the spirit nature, and finally to be born of the Spirit—made like our Lord. But before they can do this, Jesus' merit must be imputed to them. That is, the human perfection which mankind will actually receive during the Millennium is imputed, counted, to the Church now by faith. Thus the Church are by faith eating the flesh of the Son of Man.
But the Church are to do more than this. They are to drink His blood—give up their human life, drink of His sacrificial cup, participate in His sufferings and His death in order to enjoy His glory. Whoever becomes a joint-sacrificer with Jesus gives up all his rights to the earthly nature. As the Father gave our Lord the higher life, so He has promised that whoever will follow in Jesus' steps will also receive the Heavenly life. The agreement to drink our Lord's blood—to share in His sufferings and death—is the special Covenant which brings us into the family of God. This is called the Covenant by Sacrifice.

Mothers—Watch Irritable Children!

That fever, paleness, grinding of teeth while asleep, and coated tongue are indications that your child has worms in its system. Kickapoo Worm Killer quickly gets rid of these parasites. It is perfectly safe for even the most delicate children. It is pleasant to take, has three effective medicinal qualities—acts as a laxative, expels the worms, and tones up the system. Begin treatment to-day and eliminate the cause of irritability. 25c.

Military Tactics.

So far as history gives us any information on the subject, the father of "tactics," in the military sense, was the great Theban General Epaminondas, who at the famous battle of Leuctra, B. C. 371, fought between the Thebans and Spartans, for the first time introduced the scientific mode of fighting. Prior to that time the universal rule was for the opposing armies to face each other and fight it out by sheer brute force and buldog tenacity without any particular regard for scientific principles.
