

A large summer convention of the International Bible Students' association was held in Asheville, N. C., with students of all ages attending...

And He lifted up His eyes on His disciples, and said, blessed be ye poor, for ye shall have the kingdom of God...

Think not, my dear brethren, said the pastor, that my address is intended to stir up class animosity...

The Master evidently intended to include riches of every kind—learning, influence, honor of men, etc., as well as financial wealth...

We are not to take the views of the darker days, and to suppose that the Master meant that the rich at death would be thrown into everlasting torture...

Wrath to the Uttermost Upon the Jews. St. Paul, referring to the same woes which Jesus predicted, had living near the close of the Jewish age...

That woes and tribulations are associated with the present life for both the rich and the poor is undebatable. All acknowledge these woes...

Apparently the life experiences of the poor and ignoble are as favorable, or more so, than the conditions of the rich and the talented...

The Jews, whom Jesus addressed, He declared "knew not the time of their visitation." They realized not that they were living in the end of their age...

Heat Very Trying to Women's Nerves

THEY NEGLECT THEIR BOWELS AND THE POISONS VITIATE THE BLOOD.

Hot weather has a very weakening effect on women. They are too languid to exercise, and as a result have appetite only for foods that seem light and tasty...

It is especially in hot weather that women should keep up the highest standard of health, for it is necessary to have strength to resist the heat. The first essentials are good digestion and regular bowel movement...

time, addressed by our Lord, were very self-satisfied, very prosperous, and looked for the Messianic kingdom in an opposite direction from that which Jesus taught...

Jesus prophetically foreknew and foretold the crisis of the Jewish nation. His message gathered out of that nation the "Israelites indeed, in whom was no guile."

Then mankind, left to themselves, will wreck their present civilization. As the rich of Jesus' day suffered most keenly in their time of trouble...

Who has not been struck with nature's compensations? The rich, the learned, the favored, have trials and difficulties, perplexities, cares, doubts and fears...

In matters of grace the same rule to some extent prevails. The rich have more on which to set their hearts, more to occupy their time...

We are not to understand that God is partial to the poor, the mean, the illiterate, the ignoble, the servile...

WORDS OF PRAISE

For MAYR'S Wonderful Stomach Remedy

"How thankful we are to you for giving a hold of your Wonderful Remedy. My wife could not have had but a short time to live if she had not used your Wonderful Remedy when she did. One more of those paroxysms pains she was having would have killed her without doubt."

Of those again the scriptures declare, "The whole world lieth in the wicked one." Not intentionally and knowingly, but ignorantly, through depravity and deception, they are servants of sin...

According to the Bible testimony, these are the ones who are about to bring upon the world the great time of trouble...

Some poor, instead of being drawn to God by their poverty, cultivate a spirit of anger, malice, hatred, strife, and are thus not only embittered in spirit, but have their faces turned in the opposite direction from the one in which God's blessings come...

The class described by Jesus as "ye poor" is composed of those who are hungering after righteousness, and who have approached the Fountain of Blessing, the Almighty, and have been received as children of God...

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy...

Some of the new floures are being cut on the circle. Also, they are made from plantings. But no matter how many floures, the foundation skirts will be narrow.

Neither does this mean that, if they had riches of learning, they must ignore their knowledge, and speak and act ignorantly. It means, however, that their learning is no longer theirs, but the Lord's...

This poverty and sacrifice does not mean the giving up of noble sentiments and high ideals, but the bringing of these ideals into the Lord's service, for the support and advancement of His message of truth...

This sacrifice, or surrender, does not mean that honor of men will be disesteemed thereafter; for it will always be true that "a good name is rather to be chosen than great riches."

Worldly Wisdom Vs. Heavenly Wisdom. The scriptures distinctly point out that there are two kinds of wisdom, radically opposed to each other—the earthly wisdom and the heavenly wisdom...

Those who follow the earthly wisdom are subject to the frailties and imperfections of the human mind with which they were born—born in sin...

HOW UNCLE SAM ASSISTS THE NATION'S DAIRYMEN AND PROTECTS THE CONSUMER FROM IMPURE MILK

Washington, D. C., Aug. 2.—The department of agriculture has issued the following statement outlining its policy in dealing with the milk situation in the United States:

It is erroneously supposed that the department of agriculture has established absolute standards and bacterial counts to which all milk coming under its jurisdiction in interstate commerce must comply. The department has established no absolute standards. It certainly has not and will not establish any rule declaring that milk containing less than a certain number of bacteria per cubic centimeter is good milk...

The department in its milk activities is carrying on an extensive campaign of education to help dairymen produce and market good clean milk.

With the inspectors, the demonstrators visit the dairy farms as friends of the farmer. They may show him that certain cows in his herd do not yield enough milk to pay for their feed...

come dangerous, the dairymen is warned to clean up and is shown how to improve his milk. If he fails to act on this warning, prosecution follows. The purpose of this work now being carried on around Pittsburgh is not so much to protect the large cities which have their own health officers and milk inspectors, but to prevent dangerous milk being shipped across state lines to smaller towns which have no local milk inspection...

The records of infant mortality in Cincinnati from 1909 to the present time show a decrease of about 33 per cent. A number of specialists in children's diseases in that city attribute this decrease in the death of babies to work done by the federal government and by the city in co-operation...

Interstate Shipments. "The government's first investigation into interstate shipments of milk was undertaken in the summer of 1908, around Cincinnati, before that city had a milk inspection department. Most of the milk used in Cincinnati was shipped across the state line from Kentucky. The results of the government's analyses of this milk are as follows:

Educating Children

strive for and grow into in the pre-grade period. That this growth was visible to others besides the teachers is admitted for parents who attended early and later during the session commented upon the changes they could see.

From the primary teacher's standpoint, well-trained kindergarten children have decided advantage over those not so trained; from the superintendent's standpoint they furnish fewer cases of retardation and repetition than does the other group. The discussion of this second point can be found in the National Education association report, Superintendent Mary D. Bradford of Kenosha, Wis., made a study of 1,663 children in the first, second, third, fourth and fifth grades, and found that the 925 who did have kindergarten training saved the city of Kenosha \$2,483; that the 738 who missed such training cost the city an extra \$2,783.

With the inspectors, the demonstrators visit the dairy farms as friends of the farmer. They may show him that certain cows in his herd do not yield enough milk to pay for their feed. Or the demonstrators may point out certain changes in feeding which will greatly increase the yield. They help the farmer build an inexpensive milkinghouse, and show him how a winnowing or a water-proof floor for his barn, or a little whitewash or more frequent cleaning will actually increase his profits.
