WHY CHRIST AROSE FROM THE DEAD

What His Resurrection Proved and Guarantees.

Pastor Russell's Easter Sermon Delivered in Academy of Music Before a Congregation of 2,500—Shows Some Inconsistencies of Present Beliefs.

PASTOR RUSSELL

Brooklyn, N. Y., April 7.—Pastor Russell of the Brooklyn Tabernacle preached in the Academy of Music today to nearly 2,500 hearers. His topic was, "Why Christ Arose from the Dead." His text was: "If Christ be not risen, then is our preaching vain, and your faith also vain; ye, and we are found false witnesses of God." Then he also which are fallen asleep in Christ are perished." (1 Cor. xv, 14, 15, 18.) He said: "The faith once delivered to the saints by Jesus and the Apostles in respect to the resurrection of the dead has been very generally lost. Christian people profess a belief in the resurrection, because they find it stated in the Bible, yet they are continually in difficulty in their endeavor to make the Scriptural teaching on the subject square with some of the unscriptural theories received into the Church and incorporated into many of the creeds. St. Paul warned the Church against these human philosophies, and called them 'science, falsely so-called,' which make void the Word of God. These errors have been instrumental in dividing the faith of God's people into 600 different denominations, with 600 different professions. If God's people could all come back to the simplicity of the Bible's teaching, all of these differences would speedily disappear. God's Word would be seen to be beautiful and harmonious and satisfactory to the consecrated intellect.

The Bible Resurrection Reasonable.
Really the doctrine of the resurrection of the dead has been repudiated by all denominations, not willingly, but intentionally, but perforce, as it were. An opposite theory received and entrenched in the minds gives no place for the doctrine of the resurrection as the Bible presents it. Consequently we have twisted the doctrine of the resurrection and recte, "I believe in the resurrection of the body."
Yet, even this perverted view of the resurrection is not satisfactory to those who hold it. They wish many a time that the doctrine of the resurrection was not in the Bible, so much difference does it cause. For instance, how inconsistent it seems that they should say, "I believe in the resurrection of the body," and then say, as many do, "Dying is but going home, getting rid of the mortal flesh, and being freed from its limitations. If it is a blessing to die and get free from the limitations of the body, how could it be a blessing to be reincarnated in the body, and be obliged to keep it through all eternity?"

There is nothing inconsistent in the Bible presentation of the resurrection. Not from the Bible, but from men, comes the suggestion of the resurrection of the body. The Bible invariably refers to the resurrection of the soul. It is the soul that dies; as we read, "The soul that sinneth it shall die." Adam was created a living soul, but his living soul came under the death sentence because he disobeyed God. It was his soul that was redeemed from death, not his body. "I will redeem thy life (look up the word life to see if it is from the Hebrew word meaning soul, and if so, add the word soul after the word life, in parentheses) from destruction.—Psalm ciii, 4.

To accomplish this redemption we read that Christ Jesus "poured out His soul unto death." He made "His soul an offering for sin." Moreover, we are particularly told that it was the soul of Jesus that was raised from the dead: "I will not leave Thy soul in sheol." St. Peter quotes this statement as prophetic of the resurrection of Jesus that His soul was not left in hades. With what body do they come? Is a totally different question. Some of the dead souls, in the resurrection, will come forth with spirit bodies, and others with human bodies, according to the Bible. But the important point is that it is the soul, the being, that comes forth. If the soul dies, as the Bible declares, then manifestly the soul should be resurrected.

Bible Made Void by Tradition.
The difficulty with us has been that we "have made void the Word of God" by our "traditions." We received from the Grecian philosophers a tradition which Socrates and Plato both advocated, namely, that when a human being dies he does not really die. The soul, it is claimed, cannot die, but whenever the soul gets out of the body, the body dies. How strange it seems that we all accepted this philosophy without a word of Scripture, but with hundreds of Scriptures to condemn it! It behooves us to take a decided stand either with the Grecian philosophers and their theories, or with the Bible. The two are in conflict and whoever attempts to hold both is in confusion. If the dead are not dead, then no human being is dead; and if no one is dead, how could there be a resurrection of the dead?

Pioneer Resident Dies of Cancer

Died, at his home in our city, at 1:15 o'clock last Sunday morning, William Hinsberg, aged sixty years, four months and twenty-four days.

The deceased was taken ill last summer with what was thought to be stomach trouble. After treating with various physicians in this city for several months, he finally went to Rochester, Minn., where he was examined by the Mayo doctors and he was told that he had cancer of the stomach. He was operated on but the surgeons were unable to remove the dreaded disease and he was sent home to await the end. He bore his serious illness with a Christian fortitude and never gave up hope.

Mr. Hinsberg was engaged as a teamster for many years in this city and had a pleasant little home in the east part of the city. He was a hard-working man and by strict economy managed to make a good living and provide well for his family and give his children the advantages of a good education.

It was the writer's good fortune to have known him long and well, and we only knew him to esteem him as the years passed by. His many friends will miss his kindly smile and friendly greeting.

Deceased was born in Germany on November 21, 1851, and came to Watertown in the spring of 1888, residing here continuously since that time. He was a good citizen and his death will be sincerely mourned by his wife and daughter, together with a large circle of acquaintances.

Funeral services were held Tuesday afternoon at 2:30 o'clock from the German Lutheran church in this city, after which the remains were interred in Mt. Hope cemetery.

Glorious Rain Gives Crops Big Start

The people of South Dakota are feeling just right and never in the history of the country was there better prospects for a bumper crop than there are this spring.

The late rains last fall put the fields in splendid condition for seeding this spring and for the past two weeks the weather could not have been more favorable for doing field work.

Last Friday evening rain commenced to fall in this vicinity and there was a steady downpour for at least twelve hours. Over four inches of rain fell during that time.

From reports it seems that the rainfall was general all over the state. It is estimated that about two-thirds of the small grain has been sown in this state up to the time when the heavy rain struck.

It was a most glorious rain and one can almost imagine that he can hear things growing in our great state. We have moisture at this time to start the crop in good shape and last up to the first of June.

S. W. Hayden of Florence, transacted business in the city Friday. Dairy butter is a mighty scarce article in Watertown just about now.

The real estate business ought to pick up some now after such a fine rain.

Doersch, the Maple street horseshoer has purchased a machine for clipping horses.

Perry F. Loucks has bought the John Walkin residence property in the southeast part of the city.

Mrs. A. T. Hopkins returned home last Saturday from a two weeks visit with relatives in the twin cities.

W. W. Wilson, of Suit Shop fame, is in Chicago this week on business pertaining to his store in this city.

Contractor John Kozak has a crew of men at work remodeling one of the Dory cottages on south Maple street.

Farmers have been so busy planting the 1912 crop that the old town looks somewhat deserted for the past couple of weeks.

It is rumored on the streets that the Watertown Herald will soon commence the publication of a daily paper in this city. It is said that it will be a morning daily if it is started.

ALMOST A MIRACLE.
One of the most startling changes ever seen in any man, according to W. B. Holsclaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery, and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family has used this wonderful remedy for coughs and colds with excellent results." It's quick, safe, reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at all druggists.

Every vote cast for George W. Egan for governor means a new deal in South Dakota politics and the elimination of machine rule.

Wright Vaigason of Wallahalla, N. D., was in the city Monday, on his way home from South Shore, where he had been visiting relatives.

Clearing up time has arrived and each and every citizen should get busy as soon as possible. The health of our people depends to a great extent upon the cleanliness of our city. All rubbish, filth and manure should be removed as speedily as possible.

In a recent straw vote among the students of the state university at Vermillion George W. Egan was the choice for governor by a good majority. He is the coming man in South Dakota and is constantly growing in popularity among all classes of people.

It is not often that hay is cut in the winter on an ice pond but that was done last winter on Spring Lake. The grass was four or five feet high and the water was from one to three feet deep. When the lake froze it gave those who were short of feed a chance to "make hay."—Oldham Register.

THE SECRET IS OUT

Hortense Cavalla, was known as the most beautiful woman in Europe.

It was common knowledge that a prince of the royal blood, heir to the throne of one of the oldest European countries was so enamored with her charms, that he had repeatedly offered to marry her and relinquish his kingdom.

She was the envy and despair of all the ladies of the Court as the men had eyes for no one but her in her presence. And while her figure and features were beautiful it was the surpassing loveliness of her complexion which was her greatest charm.

Her skin was white as alabaster, smooth and velvety of texture and her colour rich and warm.

No Greasy Face Creams for Her. What Did She Use?

That was the question so many women were dying to know. Cavalla would not tell and others could not tell the secret, because they did not know.

Just how a certain Chemist discovered her secret would make an interesting story alone, or we have not the space to tell; suffice it to say that money could not buy her famous recipe and one of the conditions was that it should never be sold in Europe where her envious rivals could obtain it.

SHE USED A FACE RETENOID
The Siloron Mfg. Co. has been organized to manufacture her famous recipe and they have termed it after the properties it possesses, "ALABASTROL."

The story told above is true in its every particular with the single exception of the famous European Beauty's name as she does not want newspaper notoriety.

Alabastrol is something entirely new; not a face powder, neither a lotion, nor a cream.

Yet possesses the properties of all to a more intense degree accomplishing far better results in a shorter space of time.

Why use face creams if you only offset their beneficial properties a moment later through the application of skin drying face powders of often doubtful origin? Powders blow off, soil your clothes and give your face a chafed appearance at once indicating their use.

'Tis not so with Alabastrol, it is rubbed into the skin much as you would a cream (only after it, use you won't need any creams) and in a few seconds the beneficial and essential oils are absorbed by the skin and presto—

NOW NOTE THE SKIN
Not oily or greasy appearing but a dull, velvety looking smooth surface will be reflected to you from your mirror—a truly alabaster like effect—and what is more will remain that way for hours and no one will be able to detect its use.

We do not claim that all can possess the beauty of Cavalla but we do claim that anyone may obtain a beautiful complexion by using Alabastrol.

Now remember our claims are not the origination of a fertile mind as the Siloron Mfg. Co. is incorporated under the laws of the State of Colorado and that Alabastrol is guaranteed under the U. S. Pure Food and Drug Act to contain nothing but the purest ingredients and is manufactured under the most modern and hygienic methods.

Alabastrol is healing and antiseptic in effect, and though it has been on the market but a short time everyone who has used it says it is "The Most Perfect Complexion Beautifier" and Mail orders from all over the country are pouring in.

We send "Alabastrol" in plain wrapper to any address in the U. S. on receipt of 50 Cents Silver.
THE SILORON MFG. CO.
Pueblo, Colorado

COMING TO WATERTOWN

Battle Creek Health Specialists

Noted Physicians of Rare Merit and Extraordinary Experience will be at the

KAMPESKA HOTEL, APRIL 22
HOURS 10 A. M. TO 8 P. M.

ONE DAY ONLY
FREE CONSULTATION AND ADVICE.

The Battle Creek Health Specialists are several specialists who have combined in the special treatment of chronic and nervous diseases by new revised and improved methods. Their perfected system is today recognized as the most successful according to latest scientific research work of the medical world. The remarkable success in their treatment of these diseases has aroused much enthusiasm in the northwest states in which they travel.

The many testimonials received and many new cases recommended by former patients is due to their scientific mode of treatment.

The following is a partial list of ailments treated: as troubles of eye, ear, nose and throat, as catarrh, deafness, stomach, intestines, blood, skin, nerves, lungs, heart, as asthma, consumption, weakness, dizziness, swellings, kidney, bladder, bedwetting, rheumatism, and cases people call private troubles.

With their system of treatment no operations for appendicitis, gall stones, tumors and goitre.

All cases are kept strictly confidential.

No matter what you may think or others have told you regarding your ailment consult the doctors on this trip as it may be your last chance to see a specialist. For all those who call on this trip there'll be NO CHARGE for examination and consultation.

NOTICE—Married ladies without their HUSBANDS, and minors without their parents, will positively not be admitted to Consultation unless accompanied by one of their local physicians.

DON'T FORGET THE DATE, AND COME EARLY.
They will return regularly every few months.

All women are more or less grade boys, and some have faith in their husbands.

The Argus Leader says North Dakota will have another primary for the nomination of a state ticket. The taxpayers of our northern neighbors could have saved the cost of the extra primary had they followed the example set by South Dakota. Our primaries come late—but we save \$75,000 by it.

Buy a Gasoline Engine You Can Depend Upon

TWO engines may look equally good, may even work equally well for a time. In the end one proves satisfactory, the other becomes a nuisance. Why?

The satisfactory engine is one that is carefully built, and thoroughly tested. Thorough testing takes time and costs money. It means careful adjustment under trying conditions. It is an expensive process, but a necessary one if the finished engine is to be dependable.

IHC Gasoline Engines Are Thoroughly Tested

No engine leaves the factory until it has proved itself thoroughly dependable. That is reason enough for buying an IHC engine. It is a good buy because it is dependable—it is dependable because it is thoroughly tested. If you want engine satisfaction for years to come go to the local dealer and buy an IHC gasoline engine. It is the safe way and by far the cheapest in the long run.

International Harvester Company of America (Incorporated) U.S.A.
Chicago IHC Service Bureau
The purpose of this Bureau is to furnish, free of charge to all, the best information obtainable on better farming. If you have any worthy questions concerning soils, crops, land drainage, irrigation, fertilizer, etc., make your inquiries specific and send them to IHC Service Bureau, Harvester Building, Chicago, U.S.A.
