### The New Year Debutante Favors Gay Plaids—Charming Afternoon Gown Fashioned of Havana Brown Charmeuse Satin with Dull Gold Taffeta Trimming—Vari-colored Materials in Vogue—Resolve to Improve Your Speech—Keep a Guard on Your Tongue and Think Before You Speak.

#### FOR THE NEW YEAR DEBUTANTE

Dashing plaids, blocks and stripes are having their innings in the smart winter wardrobe of her much-feted highness, the debutante. For indoor wear and the street we find her in glowing combinations of color, again rich and subdued, almost invisible in the lower toned gradations, which are preferred for the latter, although I have noted some striking color schemes on the promenade. Self-material, plain and plaided, are combined in serge, velvet and satin. However, more distinction is expressed by a contrasting weave. Plaid crepe meteor and taffeta and silk poplin are charming for woolen, velvet and of plain silks. A charming afternoon gown was fashioned of Havana brown charmeuse satin, trimmed with taffeta, having a dull gold background.

A most tempting little frock of dark blue serge had its tunic-pannier forming the bodice and upper portion of skirt of gayly plaided satin taffeta. And a stunning Russian green uncut velvet was relieved by festive touches of Oriental silk crepe arranged in satin stripes.

#### ADD THIS TO YOUR NEW YEAR RESOLVES.

Every day we meet charming and apparently cultured women who murder the English language whenever they open their mouths. Of course they know better, but carelessness of speech is one of the besetting sins of this Nation. There is no time for thoroughness in the bustling life of today—superficiality is "smart." The debutante, the society matron, the college graduate, all think they must have a smattering of many subjects if they would keep up with the world. Instead of a thorough understanding of one thing, they nibble at the edges of everything and seldom consume anything. The mother tongue is one of the worst sufferers from the indifference and carelessness of those who should take pride in speaking correctly.

For instance, it is quite usual to meet with a split infinitive nowadays. Almost every reader has heard some one say "to quickly decide," or words to that effect. It takes no longer a time to say "to decide quickly," but for some unknown reason many persons prefer the error. The unfortunate personal pronoun is often in hot water. It is not only the average talker who misuses the pronoun, but distinguished writers are guilty of this mistake. "Anybody might say what they liked," or "He must allow everything their own way of doing things," we come across in a well-known and popular novel of the day. Well-edited periodicals permit writers to impress slipshod diction upon pages, and newspapers overlook the same mistake. The remedy for this carelessness lies in the individual. Each one should keep a guard on his tongue and think before he speaks.

#### NEW YEAR'S EVE IS CELEBRATED AT WRECK

Salt Lake, Jan. 2.—Traffic over the Denver & Rio Grande from the east was delayed about twenty-four hours, beginning Wednesday afternoon about 4 o'clock by a head-on collision between a westbound freight train and a helper engine in the east end of the Colton yards. No one was injured in the collision despite the fact that a big Mallet engine which was pulling the westbound train was derailed when it "side-swiped" the helper engine in crossing from one track to the other. The most serious thing about the whole wreck was the pale of gloom

which spread over the many passengers on Denver & Rio Grande train No. 3, which reached the scene a short time after the wreck, and which was compelled to remain there until late yesterday morning. This train was carrying a hundred or more passengers and was due in Salt Lake on Wednesday night at 11 o'clock, but did not reach the city until 4:42 p. m. the next day. There were many passengers aboard who had hoped to arrive in time to participate in the New Year's eve festivities, but when they learned that it probably would be many hours before the wreck was cleared the dining car was commandeered and a little show of their own was put on. The larger of the dining car held plenty of "refreshments" of various sorts, and with the assistance of two Italian immigrants who carried accordeons the passengers put on a show even to the dance, for one couple at a time would tango down the aisle of the car and then give way to another. Dining car porters who never knew they could sing were paid grand opera salaries to help make the passengers forget the blizzard.

#### "PINK LADY" WILL BE EVENT SUNDAY

When the office of the Orpheum theatre opened this morning there was in evidence the biggest line that has ever been known here in years, as this marks the opening day of the sale for the engagement of Fisher and Stevens' great musical comedy hit, "The Pink Lady," with many of the New York and London company, which is booked for a one night's engagement at the Orpheum next Sunday. This is the engagement of extraordinary of the season and the advance interest already demonstrates that the sale will be a record breaking one for the season. It is not for all times, at this house.—Advertisement.

#### GOITRE CAUSED BY IMPROPER NUTRITION

New York, N. Y., Jan. 2.—Goitre is probably caused by improper nutrition, according to an announcement made in the current number of the Journal of Medicine of Experimental Medicine, the official organ of the Rockefeller Institute for medical research. The announcement is based on observations made by Dr. David Marine of Western Reserve university in Cleveland. It had been observed that the disease had occurred in sections of Germany and Switzerland where liver made into sausages in a prominent article of diet. Dr. Marine, who for several years has been making a study of the disease with brook trout, demonstrated that fish fed on liver in hatcheries developed the disease and that a group which was fed with whole sea fish didn't contract it. Fish suffering from goitre recovered on a sea fish diet. "A comparison of liver as a food with fish as a food," writes Dr. Marine, "seems to indicate that the liver lacked something needed by the developing fish which the diet of fish contained. It is probable that the liver contains some substances in excess, in attempting to utilize which the animal exhausts other elements necessary for nutrition which are not present in the liver in sufficient

amounts. As to the nature of this chemical fault, one cannot reasonably speculate."

Goitre, he declares, is an indication of nutritional disturbances, but he is not at this time prepared to say that the malady in man is produced by the same causes that affect the fish he has studied. Dr. Marine's observations are regarded as important because the exact cause of the disease has been unknown and because they at least suggest means for the treatment of goitre in human beings.

#### MUNDUS DISCOVERED BY PROFESSOR BONI

Rome, Dec. 2.—Prof. Giacomo Boni, director of excavations in the Roman forum and on the Palatine, discovered yesterday in the center of the Palatine area the "Mundus" or central point of the ancient city marked out by the famous furrow of Romulus. It is recalled that on New Year's day, 1899, Prof. Boni discovered in the forum the "Niger lapis" which marks the legendary grave of the founder of Rome.

#### ESKIMO TRIBE HAS EXTRA VERTEBRAE

London, Jan. 2.—Charles Dawson, who found the famous Pittdown skull, has made another discovery of considerable interest to anthropologists. He has discovered that the members of a certain Eskimo tribe have literally more backbone than the rest of humanity; that is to say, they have one extra vertebrae to which small ribs are attached.

#### WORKING GIRLS MAY DANCE THE TANGO

New York, Jan. 2.—More than 700 working girls yesterday attended the house warming of the new club house of the Vacation Savings Fund of the National Civic Federation. Miss Anne Morgan, one of the leaders of the vacation committee, said that it was hoped to make it a place of recreation for those of the 14,000 girls who are depositors to the vacation fund and who are taxpayers. A taxpayer, she explained, contributes \$1 yearly to the support of the house. There are to be few restrictions in the entertainment offered, and the hesitation, the one-step and the tango will be taught.

#### PRESIDENT GOMEZ RETURNS.

Caracas, Vez., Jan. 2.—President Juan Vicente Gomez returned to the capital today after an absence of five months. He brought with him an army of 7,000 men with which he had encamped at Maracay since early in August, when General Cipriano Castro, the former dictator, made an unsuccessful attempt to bring about a revolution.

#### COAL BARGE MEN DECLARE STRIKE

New York, N. Y., Jan. 2.—A general strike of coal barge men, it was announced yesterday, following a meeting of the barge men's union, would begin today. The coal bargemen who demand an increase in wages from \$50 to \$60 a month, recently presented their demands to the coal companies. The majority refused the demands. It is estimated that a general strike of the coal barge men would tie up 3500 coal barges and cut off the supply of the electric light and street railway powerhouses and other companies which handle barge coal.

#### CARD OF THANKS

Mr. and Mrs. James Welch and family express their heartfelt thanks to their many friends who so kindly assisted in their great sorrow and bereavement, in the death of their son Charles. Also to those who contributed so freely in the floral offerings. Not forgetting the employees of the Coach Department of the O. S. L. R. Co. Any and every solace and comfort be granted to you should you ever be called to pass through similar trials.

#### NAVAL ARCHITECT GIVEN APPOINTMENT

New York, N. Y., Jan. 2.—Lewis Nixon, naval architect, shipbuilder and the successor of Richard Croker as leader of Tammany hall, will be commissioner of public works in the borough of Richmond. Charles B. McCormack, borough president, announced yesterday that Mr. Nixon had accepted the appointment. Nixon is 53 years old. He was graduated from Annapolis in 1882 and was transferred to the construction corps in 1884. In 1890 he designed the battleships Oregon, Indiana and Massachusetts. He resigned from the navy to become superintendent of the Cramp shipyard in Philadelphia.

#### JURY IN LARCENY CASE DISAGREE

Hudson Falls, N. Y., Jan. 2.—The jury in the case of Cornelius V. Collins, former state superintendent of prisons, and Michael Fitzgerald, a Troy contractor, tried on charges of grand larceny in connection with the installation of the water system at the Great Meadows prison, reported today that they could not agree and were discharged after nineteen hours' deliberation.

#### DUFFY DEFEATS MCCANN.

Buffalo, N. Y., Jan. 1.—Jimmy Duffy, eastern lightweight champion, whaled Frankie McCann of Scranton all over the ring for ten rounds here this afternoon. McCann escaped a knockout by clinching.

#### LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itching scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears and after another application or two, it becomes beautifully dark, glossy, soft and abundant. Agents, A. R. McIntyre.

#### MEDAL IS AWARDED A DEAD PROFESSOR

Washington, D. C., Jan. 2.—A medal of honor has been awarded by the National Geographic society to the late professor, F. H. King, as a recognition of a warning he gave to the United States to follow the conservation methods of China if it hopes to endure. Professor King has been dead for several months. Announcement of the award was made by the society today.

#### All He Asked.

Up in Alaska there used to be a district attorney who was long on native oratory, but short on education. Once, while prosecuting a big case, coming to the finish of his argument, he leaned across the rail and made this plea: "All I ask of you, gentlemen of the jury, is that you retire and mete out justice as she deserves to be met!"

#### Day by Day.

We live by days. They are the leaves folded back each night in the great volume that we write. They are our autobiography. Each day takes us not newly, but as a tale continued. It finds us what yesterday left us; and as we go on, every day is telling to every other day truths about us, showing the kind of being that is to be handed on to it, making of us something better or something worse, as we decide.—J. F. W. Ware.

#### SUPREME COURT FACES BIG TASK

Washington, Jan. 2.—The supreme court of the United States will begin the new year next Monday with an unusual amount of work. In addition to the probable announcement of many decisions, the court has set down for hearing on that day, or as soon thereafter as possible, enough cases to consume the time of the sittings of the court for nearly a week. One of the most interesting of these involves the liability of the owners of the Titanic, which went down after striking an iceberg on April 14, 1912. The contempt cases against Samuel Gompers, John Mitchell and Frank Morrison of the American Federation of Labor will be considered again by the court.

#### Preserve Quiet Ceremony.

A quiet ceremony was witnessed at Market Drayton, Shropshire, England, the other day, when the "dirty fear," one of the last fairs of the year, was proclaimed. Clad in their robes of office the court officials paraded the streets and the official also taster read the proclamation, which requested "all rogues, vagabonds, cut-purses and idle and disorderly persons immediately to quit the town."

#### FATAL AMBITION, NOBLE AMBITION

Ambition a Prime Necessity to a Successful Life.

Two Notable Examples in the Bible, of Right and Wrong Ambitions—A Mis-translated Text—Its True Import—A Glorious Life and Prospect Ruined by Wrong Ambitions—In Contrast, Another Glorious Life Enhanced in Eternal Glory by Following Right Ambitions—The Lesson to the Church of Christ—Incidental Lessons to All and to Angels.

PASTOR RUSSELL

Of Pastor Russell's two discourses here today, we report one. He took for his text Philippians 2:6, 7, but corrected the translation, declaring that he had the support of scholarship in rendering it thus: "Who, being in the form of God, did not meditate a usurpation to be on an equality with God, but [contrariwise] made Himself of no reputation, and took upon Him the form of a servant." The Pastor declared that whoever has no ambition has not properly begun to live. Ambition implies appreciation of life's value—a fixed determination to reach the goal decided upon. He urged parents and teachers to assist young people in forming noble ideals and in determining which goal they will bend life's energies to reach. He also reminded them that many of those successful in life often declare how much they owe to noble instructors.

#### Many Woe-Begone Faces.

Then the Pastor commented on the fact that in a crowd of a thousand people less than a hundred show by their faces and energy that they are pursuing an ideal, an ambition. In other words, nine-tenths of poor fallen humanity lack the very mainspring of life.

This lack of proper ambition, said he, makes life a drudgery and also is a menace to our social fabric. According to the Bible, it is this nine-tenths of humanity that will pull down our civilization in a kind of blind fury—the awakening of an ambition which, not knowing how to exercise itself, will bring trouble upon all.

The Pastor then showed that the ambitious tenth of humanity turn the wheels of progress by not only keeping their own minds occupied, but by giving employment to others. Men of ambition leading on to genius have helped mankind to larger conceptions of life and wider possibilities. Granting the necessity for legislation in restraining combinations of brains and money, let us never forget how much we owe to the ambitious men whom we seek to restrain from crushing those of less ambition and capacity.

#### The Lesson of the Text.

The Pastor said that while the Apostle does not specify Satan in contrast with Jesus, yet between the lines of our text we may read that he had this thought in mind. Then the speaker traced Satan's career as set forth in the Scriptures. Lucifer, one of the most glorious spirit beings, became possessed of a sinful ambition. Instead of the righteous ambition to serve and honor his Creator, he thought to have an empire of his own and improve upon the Divine order of things. Lucifer's ambition led him to attempt to carry out his program in connection with mankind. Therefore he was known as Satan, God's adversary. He has been permitted to show the evil results of his chosen course. But soon he is to be restrained a thousand years, while Messiah's Kingdom gives all an opportunity to return to harmony with God and to attain everlasting life. Ultimately Satan will be destroyed, together with all having his spirit.

#### The Logos Humbled Himself.

Then the Pastor contrasted the course of the Logos, the Only Begotten Son of God. He was the very personification of obedience and self-abnegation. Instead of meditating a usurpation of Divine authority, He declared, "My Father is greater than I." Man's fall brought opportunity to manifest loving obedience. As a perfect man was condemned to death, so man's redemption must be accomplished by the death of a perfect man. Hence the Divine proposal that the Logos become a man, taking the sinner's nature, but not the sinner's weaknesses and sin, that He might become the Redeemer.

Attached to this proposal was the promise of a great reward—exaltation to the Divine nature, glory, honor and immortality. Jesus declared that by His faithfulness He had been rewarded with a place in the Father's Throne.

#### The Lesson of Humility.

Pastor Russell showed that the Apostle was seeking to impress the lesson of humility. Our Lord Jesus exemplified this in His course, not meditating for an instant to grasp Divine honor and association in His Father's Throne. And behold God's wonderful grace in exalting Him to His own right hand. The Father has made a similar proposition to the Church. If we become dead to the world, laying down our lives in obedience to the Father's will, we shall share our Redeemer's Throne.

The Pastor Russell's letters for six weeks past have gone astray, and have just arrived. They will now be published daily until all the missing letters have appeared.

NEW YORKER WINS MARATHON. Edinburgh, Scotland, Jan. 2.—Hans Holmer, of New York, today won the annual professional modified marathon race at Power Hall track.

#### AUTO REPAIRING At Prices to Defy Competition

We are located in a low rent district, our expenses are light, therefore we are in a position to do your repairing much cheaper than anyone else. Give us a trial and be convinced. All work guaranteed.
